Many approval and firm order customers use FOLIO, YBP's on-line service, via the Internet or direct access, to view bibliographic information, order titles, and get expenditure information. If you're not using FOLIO yet, make the connection to superior service.

This just in—Serials!
Simply key in an ISSN or a keyword for title, author, imprint, or former title to search our extensive serials database. FOLIO displays the matched serial title information. You can also view individual volume detail, former titles, and former imprints, as well as book level bibliographic detail.

What you see is what you'll get.
Access your open orders and view up-to-the-minute status information. Quantity will be displayed for number ordered, allocated, shipped, and backordered.

Access your shipment history.
Check shipment information for a title across all accounts including slips sent, orders received, shipments made, and returns received. Also view customer specific shipment history for the specific title with shipment date, invoice number and purchase order number.

YBP Reporting.
Approval and Serials customers: List the imprints handled for you by YBP in the format you want. FOLIO tells you what you've spent by date, LC classification, and publisher—based on parameters you enter.

Brodart Academic Book Services
is pleased to introduce its new sales representative Gerald Stormer.

Mr. Stormer brings to Brodart ten years of experience in the academic library world and is eager to assist you in reaching your library's high standards.

With over fifty years of book distributing experience supported by an over 1.7 million title database, and innovative electronic systems, plus Brodart’s dedication to customer service, you are assured the finest in materials selection. Brodart Academic Book Services can be reached at 800-233-8467, ext. 550.

Please stop by our booth # 214 at the upcoming ACRL Conference.
This collection of professional handbooks provides librarians with operations and management strategies for all types of libraries—public, academic, school, and specialized. Gerald B. McCabe, director of libraries at Clarion University of Pennsylvania, serves as series editor. Series can be acquired on a standing order basis at a significant discount. For details, please contact the Sales Manager, Greenwood Publishing Group, Inc.

Why worry?

You don't have to. No longer will your staff have to process, catalog, or prepare books for the shelf under tight budget constraints and shrinking resources. Just one call to Baker & Taylor and we'll do it all. Our librarians are experienced with providing cataloging and processing to meet your exact requirements and we can do it for less than it costs to do it yourself.

Today there's a buzzword for it—"outsourcing." But at Baker & Taylor it's not new and it's not a buzzword—we've been providing shelf-ready books for almost 30 years. In fact, our customers think of us as colleagues—not just a book supplier. So, why worry?

Call Baker & Taylor.

For more details about our selection, acquisition and technical services, please call Information Services at 1-800-775-1800.
The Blackwell's key opens the door to a wealth of European periodicals expertise.

Blackwell's is the largest subscription agency in the UK, and one of the largest in the world. With our European-based, multi-lingual staff, and contacts with over 30,000 publishers, Blackwell's must be the first choice for all European subscriptions.

Blackwell's is committed to full EDI trading and to leading edge technology, like Blackwell's CONNECT, which offers on-line access to our database of 1,200,000 journal and book titles. We also provide interfaces with many library automation systems, as well as fast communication with our customers over INTERNET.

In addition, our North American-based help desk and serials specialists continue our commitment to high quality customer service. This is what you would expect from a company founded way back in 1879.

But above all, Blackwell's makes the most of your budget, offering competitive pricing and attractive pre-payment schemes.

Why don't you give us a call and find out how Blackwell's offers you the key to Europe?

"Reviewed and Highly Acclaimed."

"It is... instructive to see in one place the widely varying approaches journals take toward would-be authors, ranging from single pages for several journals to 13 for Biochimica et Biophysica Acta. For those... libraries supporting advanced work in biomedicine that lack the journals themselves."

R. Balay, Choice

"Spiral-bound for easy photocopying, both reference libraries and authors will find this a valuable time saver. Any biomedical library that has clientele who publish will want this in their reference collection."

Mark Fink, Head, Collection Development, Medical Library, Cornell University Medical College, NY

"This guide can spare editors, authors, graduate students, and the librarians who serve them some exasperation, so that the focus can be on scientific content and the merits of propositions put forth, rather than on finding sometimes elusive instructions."

Tony Stange, Science Librarian, College of the Holy Cross

Complete, unabridged instructions for each journal in one convenient source
Includes U.S. and overseas journals, with complete instructions in English
Spiral-bound for easy use
Large 8 1/2" x 11" format for easy reading
Periodicals alphabetically arranged for quick retrieval
Special directory includes complete list of publishers' names, addresses, and phone numbers

A major new work on Developmental Psychopathology edited by Dante Cicchetti and Donald J. Cohen...

Developmental psychopathology -- which relates mental disorder to normal development -- is emerging as a separate subdiscipline in psychology and psychiatry. These two volumes, containing contributions by the leading clinicians and researchers in this field, present a comprehensive exposition of this valuable perspective.

Arranged in 2 volumes, Volume 1: Theory and Methods covers the history, theory and methods of this new approach; Volume 2: Risk, Disorder, and Adaptation deals with classification, diagnosis and risk factors.

SPECIAL PRE-PUBLICATION OFFER
Individual Volumes $75.00 until May 1, 1995
Volume 1, 0-471-53243-6/Volume 2, 0-471-53244-4
($95.00 per volume thereafter)
Two-Volume Set, 0-471-53257-6, 1,700 pp. (est.)
$150.00 until May 1, 1995
(190.00 thereafter)

VOLUME 1

VOLUME 2
RISK, DISORDER, AND ADAPTATION
0-471-53244-4, cloth, 850 pp. (est.)

PARTIAL CONTENTS:
The English Poetry Full-Text Database
The works of 1,350 poets from the Anglo-Saxon Period to the end of the nineteenth century, English Poetry is the largest and most accessible full-text database yet published in the humanities. English Poetry sets a new standard for the creation of textual databases. It is also available on magnetic tape. Full search capabilities include subject, poet, title, phrases, poet's dates, and bibliographic information.

English Verse Drama: the Full-Text Database
The logical follow-up to our English Poetry database is the ultimate electronic source of British verse drama from the Middle Ages to the twentieth century. This database adds six centuries of poetry intended for the stage to the thirteen centuries of poetry already available on English Poetry. Verse Drama contains more than 1,500 works by 450 named authors and approximately 230 anonymous works. Full search capabilities include word, phrase or title search; or, author play or play type search or limit your search to a speaker, stage direction or song.

Patrologia Latina Database
No single collection of Western philosophical and theological writings is comparable to the Patrologia Cursus Completus. Full, CD-ROM search capabilities include tracking by terms across centuries, research topics like Trinity, etc., search concepts, locate expressions, identify textual fragments and trace passages through its various interpretations.

African-American Poetry
Over 2,500 poems from 1760-1900 comprise this collection of African-American Poetry. The database on CD-ROM is based on William French's bibliography, Afro-American Poetry and Drama 1760-1975. This database is important for its coverage not only of major figures, such as Paul Laurence Dunbar, but also of lesser known poets. In fact, most of the poets in this collection were not recognized during their lifetimes, but rather gained recognition posthumously. Search capabilities include word or phrase, adjacency and proximity of words and more.

To order, contact your Chadwyck-Healey representative toll-free at 1-800-752-0515.
Visit us at booth #225 at ALA Midwinter Meeting in Philadelphia.

Rittenhouse Book Distributors has been an information resource for libraries for more than 40 years. We are dedicated to helping you achieve your goals.

Our full array of library services include Comprehensive Approval Plan, Standing Orders and Monographic Series management as well as the access to more than 500 health science and health related publishers.

The Rittenhouse Resource Manual, a complete guide to collection development for the health science librarian, is the industry's most comprehensive collection and development tool, and is available exclusively through Rittenhouse. It contains valuable publisher and title information, as well as statistical summaries that make achieving your collection and development goals more manageable.

Find out what Rittenhouse can do for your library. Call our Library Service Department or your Rittenhouse Sales Representative today.
Horizon™ is the information management system that sets the standard by giving your library all the benefits of client/server computing.

**A true client/server system**

The flexibility of an open systems environment means you can add to the system as needs change and adapt to future technologies while leveraging your investment.

**Expanded patron access**

In addition to your own Horizon database, patrons can use Horizon to gather bibliographic data from any Z39.50-compliant system and connect to global resources over the Internet.

**Graphical user interfaces**

The Horizon client software offers the familiarity of Microsoft Windows®, System 7 (Macintosh®), or OS/2® interfaces. Patrons can search effortlessly with icons, pull-down menus, and point-and-click commands.

**Proven by libraries like yours**

You need a system with a history of success, one designed by library professionals. Horizon has met those requirements with thorough testing by libraries around the world.

**Horizon is available today**

You can bring the benefits of Horizon to your library today. Let us show you the leading client/server system.
MIDWEST
LIBRARY SERVICE

Plays SHERLOCK HOLMES in
"The Case of
The Missing
Monograph"

When it comes to tracking down hard-to-obtain books, you might call us Sherlock Holmes. OP, NOP, and TOS reports from publishers are not accepted as prima facie evidence of non-availability. We go the next step.

Midwest Library Service maintains a research staff of several "Dr. Watsons," dedicated to locating those hard-to-get titles which may be available from other sources. Our investigations encompass the following procedures:

1. Verification of customer's information in BIP, Forthcoming Books, OP-OSI, CBI, etc.
2. Telephone confirmation from the publisher when there is evidence of availability.
3. Library verification when order information is in question.
4. Extensive search of the out-of-print market.
5. With the proliferation of U.S.-U.K. simultaneous publishing, books are often declared out-of-print in the U.S. while still available in the U.K. Obtaining these books is part of our goal of "maximum fulfillment."

By diligent research and investigation, we are able to fill many book orders that would be lost due to inaccurate reports, inadequate research, or database dead-ends. Our staff takes over and researches titles where computers leave off.

It is never "case closed" until we ascertain that a book is truly unavailable and make our report!
