How to take the anxiety out of finding back volume journals.

Our vast warehouse and comprehensive inventory continually contain the subject disciplines you require. We stock complete sets and individual volumes, in-print or out-of-print. We also buy your duplicate journals and provide appraisals.

For over thirty years we've taken the anxiety out of finding back volume journals, and built our reputation on kept promises. So write, call, FAX or access us through the FAXON-LINX network at the mailbox "Jaeger" for further information.

Connect with superior service.

Make the connection to YBP with FOLIO

FOLIO, YBP's on-line information service, is an extension of our commitment to superior service through quality book fulfillment, technology, and personal attention. Now, you can access YBP files via the Internet as well as connect with your customer service representative and bibliographer via E-mail.

Internet Access

Approval plan customers: you have been connected via direct dial access since March 1992. Now, you can connect with YBP through the Internet or via direct dial access, whichever is more convenient for your library. FOLIO currently provides access to the YBP approval plan database with acquisitions and bibliographic information for all types of approval material, including: titles on order with publishers, titles currently in-process, and titles that have been shipped on approval over the past twelve months. View complete bibliographic data and book/slip selections. Enter orders and transmit via the Internet.

Connect to YBP with Electronic Mail

E-mail enthusiasts: now you can “talk” with your YBP customer service representative, bibliographer, sales representative, and technical support staff with E-mail via the Internet. E-mail your correspondence, orders, claims, or requests for information. We will respond with the same personal attention you have come to expect from YBP.

YBP's Technical Support team from left, Frank DeRocchi, Tim Bacon, Amy Miller, Eric Carlson, Stephanie Bloain, and Tom Cheever.

In Partnership with Libraries

Working in partnership with the library and publishing communities, YBP has embraced expanding technology while remaining firmly committed to personalized service. Over the past ten years, we have developed a number of technical services, including:

- Electronic ordering with our software or via acquisitions system interfaces
- For books and notification slips supplied: Library of Congress MARC records, YBP bibliographic records in MARC format, and Innovative Interfaces bibliographic record transmission
- Machine-readable management reporting

We will continue to develop FOLIO and our other technical services to meet your library’s needs.

Yankee Book Peddler, Inc. is a full-service book wholesaler committed to providing superior approval plan, firm order, retrospective selection, serial standing order, and automated support services to university, college, and public libraries around the world.

Announcing Two New Major Reference Works
From Pergamon Press

COMPREHENSIVE ROCK ENGINEERING
Principles, Practice & Projects

Editor-in-Chief: John A. Hudson
Senior Editors: E.T. Brown, C. Fairhurst, and E. Hoek
To be published complete in five volumes

Written and edited by eminent researchers, Comprehensive Rock Engineering will be the quintessential reference work for anyone involved in rock engineering and its applications in both academic and industrial settings. The comprehensive coverage and full indexes will make this an indispensable resource for practicing rock, civil and structural engineers.

Five volumes
Anticipated publication date: June 1993
Pre-publication offer expires June 30, 1993
0-08-035932-9 0-08-035931-0
4500 pages (approx.) List Price:
$1580.00 $2250.00

THE ENCYCLOPEDIA OF LANGUAGE AND LINGUISTICS

Editor-in-Chief: R.E. Asher
Coordinating Editor: J.M.Y. Simpson
To be published complete in ten volumes

The Encyclopedia of Language and Linguistics meets the need for a truly international work of reference in the fields of linguistics and language studies. Alphabetically organized, the work consists of ten volumes, each with more than 500 large format pages, together with an index volume. The index volume contains a contributor index, a three-level subject index, a systematic outline of the Encyclopedia, an article on the bibliographic sources of information in linguistics and language studies and a glossary of technical terms used in the field. International in scope and approach, there will be over 1,000 contributors representing more than 50 countries. This will be an invaluable reference for faculty, language specialists, researchers and students.

Ten volumes, 6000 pages (approx.)
Anticipated publication date: Late 1993
Pre-publication offer expires November 30, 1993
0-08-035943-4
Pre-publication price:
$2950.00
List Price:
$3720.00

Get the articles you need quickly and easily.

Introducing Faxon Finder table of contents and Faxon Xpress document delivery services.

As easily as you could pull a journal from your shelf, you can order an article for delivery with Faxon Xpress™. Start by choosing from among our 9,000 journal titles and 2.5 million articles available in the Faxon Finder™ database. Then simply press the order key from the menu. It's that easy to get speedy delivery of your articles.

Specially developed software and scanning workstations are used to send documents, ensuring the highest resolution and legibility possible. And your scanned articles can be delivered to any common fax machine. Best of all, Faxon Xpress pays a fee to the publisher for each copy of a copyrighted article.

Call us today at 1-800-766-0039, ext. 753 to learn more about how these new electronic information services can benefit you.

For the record,
BookFind-CD offers the most comprehensive title information in the world.

Introducing BookFind-CD World Edition—instant access to more information on more titles than ever before.

The most sophisticated bibliographic database of its kind, BookFind-CD provides access to over 1.3 million English language titles from all over the world.

Among the many benefits of this unique reference tool is the availability of detailed, descriptive records like the one above, that provide an unprecedented amount of information for many of the titles in the database.

What's more, with over 2000 subject classifications, users can search for and locate titles with great accuracy—using information ranging from author or title to any word or phrase.

And once you find the information you want, you can manipulate it to meet your needs—and receive it in any of 20 different output formats.

In addition to the original version, BookFind-CD is available in special, more specific packages, including Medical/Healthcare and Business/Law. So no matter what your needs, there is a BookFind-CD that's just right for you. For more information on any of the BookFind-CD packages, call our exclusive distributor in North America, Baker & Taylor at 1-800-775-1800.
Receive first class treatment at Ballen...

no matter what your size.

Whether your order is for a thousand books or just one, whether you are a prestigious university, medical school, or a little-known junior college, every Ballen customer receives our legendary one-to-one customized service.

That means you'll have a personal Ballen customer service representative to answer questions, report status and solve problems. You'll have a specific location in our staging area for maximum quality control. You'll have instant access to important information through BallenNet™, our interactive on-line service for order entry data and current order status. Even direct telephone access to a Ballen corporate officer, if necessary.

And despite our elephantine inventory of over 100,000 titles, with thousands of books shipped every week, our return rate squeaks in at less than 1% — the industry's lowest.

Find out how you can reap the big benefits of Ballen's personal service. Call Toll-Free (800) 645-5237 or Fax (516) 864-5850.

BALLEN BOOKSELLERS INTERNATIONAL INC.
125 Ricefield Lane, Hauppauge, New York 11788
The growing need for specificity and selectivity on the part of librarians involved in collection development has caused increased demand for information from that most simple of all publisher marketing tools — the catalog. Editor names, affiliations, tables of contents — all are critical considerations in a meaningful evaluation of a monograph or journal. As the world’s leading publisher of scientific, technical and medical information, Elsevier has recognized that a catalog with extended product information is an invaluable resource for our patrons. In this segment of Information on Information, we’ll explore the exciting new format of the Elsevier electronic catalog for 1993!

In keeping with the advance of new technology and demands for improved accessibility of information, Elsevier Science Publishers has produced on CD-ROM its first electronic catalog of book and journal product. This complete catalog for 1993 is being distributed without charge to libraries, bookstores, and subscription agents.

The CD format was selected on the basis of its storage capacity, which allows the creation of a database containing far more comprehensive descriptions of all Elsevier product than would ever have been possible in a print format. “Links” permit the user to easily explore a variety of pathways through the extensive material. Such a format also allows easy installation and use through either a PC or a local area network.

Among the built-in features of this Elsevier Active Library product is the capability of producing complete bibliographies individually tailored to a precise area of study, the ability to locate a specific title on the basis of author or editor, year of publication, or subject and the capability of “free text” searching.

The CD includes:
• All Elsevier journals, with complete information about journal editors and editorial boards for most titles;
• Listings of recently published papers for many journals;
• Abstracting and indexing coverage for journals
• Complete descriptions and tables of contents of books;
• Quotes from independent reviews of published books;
• Information on forthcoming book and journal
• Book series listings
• Descriptions of all other products, e.g. software, CDs, dictionaries and wallcharts.

AN INTRODUCTION TO ACCESSING PRODUCT INFORMATION:
The introductory screen of the catalogue offers the traditional discipline subject headings with which librarians are familiar based on our print catalogs. An array of product types and available indexes appears to the right on the screen, while a vertical display of “toolbox” features clearly directs manipulation of the information. By selecting the context-sensitive help button at this screen, you can access the “how to ———–” information, everything from how to open up the hypertext product descriptions for reading to the way in which one can create and edit a document trail. You can even annotate specific product information screens for the use of your patrons.

As an outline of what you’re apt to encounter, imagine that you wish information relating to a study involving chromatography. Pointing and clicking on Chemistry and Chemical Engineering highlights that discipline entry and brings up a set of menu options that include journals and books by either subject or title, author index, electronic products and free access searching. To access any journal title relevant to chromatography, one clicks the mouse on the option, Journals by Subject bringing up initially four major headings of Bioengineering, Chemical
Engineering and Chemistry and Energy Research. A quick click on Chemistry brings up a listing of 40 possible subject headings. Clicking on Chromatography reveals the information that Elsevier has four journals relating specifically to that topic, *Analysis, Journal of Chromatography, Journal of Chromatography—Biomedical Applications* and *Chromatography Abstracts*.

Had you chosen to access *Journal of Chromatography* directly, that would have been done by clicking on the menu option *Journals by Title*. An alphabetical listing of all journal titles falling under the general discipline of chemistry and chemical engineering would then appear on the screen. A click on the title in which you have an interest would call up on the screen a full color image of the journal cover, the title and the general audience to whom the journal is aimed. Below that information would be several hypertext selections: description, editorial information, abstracting/indexing information, price information, and optionally, a table of contents for a recent volume. Any of these may be opened to give more complete information.

The menu option *Special Volumes/Issues* on your screen allows you to review titles, editors and pricing information for those journals where a special volume or issue is made available for purchase. For the *Journal of Chromatography*, more than 50 such issues are listed in the CD catalog.

Books are similarly found by title or author through a subject field. Additionally, using our example from above, should you wish to review a complete listing of available titles within our *Journal of Chromatography* Library book series, those titles can be accessed and printed out.

Perhaps most exciting is the capacity to use the free text search option. Click on the search option in the main menu. After you have typed in the phrase *chromatography* and indicated that you are interested in searching for titles of books and journals, the system then informs you that there are 34 books, 4 journals and 3 special issues within the field of chemistry and 1 book within the field of life sciences. You may then select the option of viewing the information on all 42 "hits" by title.

Additionally, information may be searched using author or editor, ISSN/ISBN, Table of Contents, and publication year. Perhaps a patron from the chemistry department requests information regarding an Elsevier title by his colleague Dr. Scott due to be published soon. The catalog can be searched using the last name Scott in the field of books in chemistry. Or the same information can be checked using the year 1993. In fact, a selector in a variety of disciplines can search the database to find only those book and journal titles pertinent to his areas that are new for 1993 and then print out directly the appropriate information.

Equally accessible are electronic products (including all of the EMBASE product line) and miscellaneous items such as wallcharts and videos. And appropriate contact names for each publishing location are included in the segment called *About Elsevier*.

**PERGAMON TITLES**

While the 1993 version of our catalog does not include either books or journals from Pergamon Press, there are plans for those titles to be incorporated into this CD catalog format for the 1994 edition.

**RESPONSE TO OUR CATALOG**

We hope this new CD catalog will provide improved service to our users but we recognize that any new product may be imperfect for all needs. Elsevier Science Publishers believes librarians and their patrons will find this catalog resource to be useful and looks forward to receiving feedback on possible improvement. In addition, should you encounter difficulties with the CD catalog, please feel free to contact Jill O'Neill (212-633-3754) for assistance.
Major Reference Works from VCH...

Publishers of Angewandte Chemie & Lerner & Trigg's Encyclopedia of Physics

**Materials Science and Technology**
in 18 volumes

Editors-in-Chief:

Highlights of MST:
- The first series designed to meet all the demands of scientists and engineers working with high-performance materials.
- Each volume details a particular subspecialty of MST and contains thorough bibliographies and its own subject index.
- Will include a cumulative index upon completion.

Scheduled for completion in 1994
Series ISBN 1-56081-190-0 Cloth
Price per volume: $325
Subscription Price: $270
Price for Set: $5400

**Encyclopedia of Applied Physics**
in 20 volumes

Editor:
George Trigg, former Editor of Physical Review Letters, NY

EAP's Seal of Approval:
Sponsored by the American Institute of Physics, the German Physical Society, the Japanese Society of Applied Physics and the Physical Society of Japan

Highlights of EAP:
- Covers modern technologies where most of the work is done by engineers and where physics research is a necessary part of further developments.
- The first work of its kind to treat both technical and industrial applications, covering every aspect of applied physics.
- Designed to be comprehensive and topically useful at the same time for years to come.
- Authors and editors are leading scientists and engineers in industry and academia.
- Volumes are organized alphabetically by subject.
- Each article contains: a detailed table of contents • a glossary of unfamiliar terms • a detailed reference list.

Scheduled for completion in 1997
Series ISBN 1-56081-058-0 Cloth
Price Per Volume: $295
Subscription Price: $250
Price for Set: $5,950

**Biotechnology**
Second, Completely Revised Edition
In 12 Volumes

Series Editors:
H.-J. Rehm, Universität Münster, Germany and G. Reed, Durham, North Carolina

Highlights of Biotechnology:
- Completely revised, restructured and updated edition of the classic series.
- Extraordinarily broad in scope, for any scientist involved in industrial microbiology, biochemistry, molecular biology and chemical engineering.
- More than 350 international experts from industry and academia present their experience in a total of over 250 chapters.
- Covers basic concepts to industrial applications.
- Takes into account all the recent advancements and gives more in-depth coverage to various areas of microbiology.

Scheduled for completion in 1996
Series ISBN 1-56081-602-3 Cloth
Price per volume: $365
Subscription Price: $205
Price for Set: $3540

**Encyclopedia of Physics**
2nd Edition

Editors: Rita Lerner & George Trigg

"This one-volume work amply fills the need for a modern work aimed at both the layperson and the physicist seeking information in the fields outside his/her field of specialization... Recommended for all but the smallest libraries."

- Library Journal
Review from the first edition

ISBN 0-89573-752-3 Cloth
Price: $450• NOW $95.00

Sometimes
the right partner
can make
all the difference.

Most subscription agencies offer the basics – consolidation of orders, prepayment, claiming. And some agencies promise automation, like online ordering and searchable title files. But only one agency delivers all that, plus something special...

Introducing the Readmore Partnership...the unique team approach that makes all the difference between standard service and peak performance.

With Readmore Academic, you've got a partner in serials management. Your Readmore Account Executive personally assists with all your day-to-day serials activities. The Academic Specialist is your liaison to Readmore's top management and publishers worldwide. And Readmore's technical team, working behind the scenes, uses state-of-the-art technology to bring you innovative services.

So don't go it alone. You know your collection, your library, your patrons and policies. We've got the experience with serials, automation, the global publishing industry plus all the resources of the international B.H. Blackwell group.

Together, we can build a customized package of services, systems and reports to meet your specific needs...keep you informed...and solve problems before they become problems.

Call 1 800-645-6595 today for more information about Readmore Academic subscription services. And see how the right partner can make all the difference for your library.

READMORE ACADEMIC
Your Partner in Serials Management

TECHNOLOGY FOR THE 90's AND FOR THE LIBRARIES OF TOMORROW

BLACKWELL'S PROUDLY INTRODUCES...

FOR COLLECTION DEVELOPMENT

BLACKWELL'S TOC|ONLINE

Blackwell's New Titles Online database now includes Tables of Contents and Descriptive Summaries for new and forthcoming scholarly monographs.

- Browse the contents pages before placing the order
- View the publisher's title description
- Order the title electronically
- Insure a title is included on approval
- Access through the INTERNET

FOR PUBLIC ACCESS CATALOGS

BLACKWELL'S TOC|505

Blackwell's MARC With Books® service now offers LC-MARC records enriched with Tables of Contents.

- Enhance subject access
- Improved chapter-level author access
- View contents & summaries in your PAC before searching the shelves
- Increase interlibrary loan efficiency

FIND OUT HOW EASY AND COST EFFECTIVE IT CAN BE TO GET CONTENTS INFORMATION TO BOTH YOUR STAFF AND PATRONS TODAY!
