Combining the strengths of our traditional approval plan with the immediacy of the Web! Available Spring 1997.

Another result of BLACKWELL'S commitment to Partnership Through Technology.
SwetsNet

Electronic journals
now you can streamline ordering and access!

Growing numbers of electronic journals bring with them new challenges for library managers and end users.

SwetsNet is a major new service, providing a single source for accessing a broad range of publishers' electronic titles.

SwetsNet offers:

- browsing of contents of specific journal issues
- full searching across all titles in SwetsNet or those subscribed to by your library
- searching of tables of contents and abstracts
- regular management information
- full information and support services
- simplified password administration
- SwetsNet is accessible via the WWW

For further information and trial access, contact Brian Noone at 800-447-9387

Swets Subscription Service • 440 Creamery Way, Suite A • Exton, PA 19341 • Tel: 800-447-9387 • Fax: 610-524-5366

Sometimes things just go together.

Take DIALOG@CARL™.

It's the wealth of nearly 400 DIALOG databases paired with a graphical interface from CARL's award-winning development team. It is an easy-to-navigate, web-based information solution.

Your patrons, novices and professionals alike, can search independently — and successfully.

Just point. Click.

And here comes the information.

And speaking of clicking, our predictable annual pricing makes sense for your budget.

DIALOG@CARL.

All together, a powerful new combination of access and affordability.

Call us and we'll talk DIALOG@CARL or visit us online at dialog.carl.org.
Surf's up! Hundreds of librarians have sighted GOBI and have made surprising discoveries. It's easy. It's free. Some say it's even fun.

Discoveries reported by GOBI observers:
- Immediate access to 1.5 million titles in US/UK database
- Sophisticated searches with Boolean keyword options
- Online real time searches, orders, and reports
- Online duplication control
- Screen-sensitive Help
- Hassle-free, customized reports

To sight GOBI,

Viewings are no cost, no obligation.
Sightings (with all the surprising discoveries) are free. Call or e-mail customer service for access. Register and begin using this rapidly developing online system by sending e-mail to service@ybp.com.
Methods in Enzymology on CD-ROM, CD-1
Recombinant DNA and Related Methodology
18 SELECTED CORE VOLUMES WITH CUMULATIVE INDEXES FOR MIE VOLUMES 1–244
INCLUDES RECOMBINANT DNA, PARTS A–I; DNA STRUCTURE, PARTS A & B; THREE GUIDE TO'S, AND RELATED VOLUMES

Series Editors-in-Chief
John N. Abelson and Melvin I. Simon

"A powerful search engine... An exhaustive reference source and any one laboratory is unlikely to use more than a fraction of the material it contains... This disc would make a splendid addition to an institutional or departmental library... With its web of embedded links, browsing the disc is not unlike browsing an encyclopaedia—one never knows what juicy tidbit one will encounter."

—M.K. Raghuraman in TRENDS IN GENETICS

KEY CD-ROM FEATURES
• The base price allows for up to five concurrent users
• Work with an easy-to-learn, user-friendly interface to Windows, Macintosh, or UNIX computers
• Search by multiple methods, including title, author, subject, or any word in the text
• View a hierarchical table of contents display for volumes, sections, and chapters
• Create personal links within the text
• Add private and public annotations

CD-ROM: $795.00
1996/ISBN: 0-12-00100-4

Database of Palladium Chemistry
REACTIONS, CATALYTIC CYCLES, AND CHEMICAL PARAMETERS CD-ROM VERSION 1.0
Jean-Luc Melleron and Alain Juin

Database of Palladium Chemistry: Reactions, Catalytic Cycles, and Chemical Parameters, CD-ROM Version 1.0 contains 3500 reactions, 85 types of mechanisms, as well as the chemical parameters related to them. The authors have not only collected the data and put it in a searchable format—they have also classified all the reactions according to the mechanism, i.e., the catalytic cycle. This database is easily accessible and of enormous value because it can be searched from the point of view of the reagents, the reaction products, or the underlying mechanism. For each type of mechanism, the search can be done by author name, periodic structure, substructure, solvent, or catalyst ligand.

CD-ROM: $795.00
February 1997/ISBN: 0-12-46760-0

Call for a free demo disk of AP's CD products—ask for ISBN: 0-12-799909-4.

Methods in Enzymology Index, CD-ROM 2

KEY MULTIMEDIA FEATURES
• One search allows access to 275 volumes in the MIE series published from 1955 to 1996
• The base price allows for up to five concurrent users
• An easy-to-learn, user-friendly interface to Windows, Macintosh, or UNIX
• Ranges from simple one-word searches to full Boolean search capabilities of the complete contents
• Hierarchical display of Tables of Contents, Contributor Index, and Subject Indexes
• Hyperlink Cumulative Subject Index entries and Cumulative Contributor Index entries to Contents of Volumes entries

CD-ROM: $99.00 (tentative)
March 1997/ISBN: 0-12-020110-1

The ME CD-ROM's use EBR's Dynamic software (Electronic Book Technologies Inc., Providence, Rhode Island), and were developed by Lightbrights of San Francisco, California.

Immunology Methods Manual
THE COMPREHENSIVE SOURCEBOOK OF TECHNIQUES
Edited by
Ivan Lekovkists
Advisory Editors
Georges Kohler, Harald von Boehmer, Louis du Pasquier, Charles Steinberg, Fritz Melchers

KEY FEATURES
• Compatible with Windows, Mac, and UNIX platforms
• Features a full range of advanced search capabilities
• Includes a personalized note creation feature enabling the user to add bookmarks and "post-its"
• Offers full cut, copy, and paste capabilities allowing printing, exporting, and editing
• Provides hyperlinks between solutions/reagents and their recipes, figures/tables and their text citations; and reference citations to their bibliographic listings
• Includes a premiere of the animated film "The Immune System" by André Traunecker and Stefan Meyer

CD-ROM: $199.95
December 1996/ISBN: 0-12-442715-4

Access AIP Journals Online in 1997

In 1997, subscribers to any AIP print journal will enjoy free access to a full-text electronic version on the World Wide Web.

The journals will be online 24 hours a day, seven days a week, with most titles available more than three weeks before their print versions. Adobe Acrobat® software will be used to view the journals as PDF files.

Available journals include:

◆ AIP journals
  - Applied Physics Letters
  - Chaos
  - Journal of Applied Physics
  - The Journal of Chemical Physics
  - Journal of Mathematical Physics
  - Physics of Plasmas
  - Physics of Fluids
  - Review of Scientific Instruments

◆ AIP translation journals
  - JETP Letters
  - Journal of Experimental and Theoretical Physics
  - Low Temperature Physics
  - Physics of Particles and Nuclei
  - Physics of the Solid State
  - Semiconductors
  - Technical Physics
  - Technical Physics Letters

For complete sign-up and service information visit AIP on the Web: www.aip.org

500 Sunnyside Boulevard • Woodbury, NY 11797

ARTICLES IN PHYSICS

A DOCUMENT DELIVERY SERVICE FROM THE AMERICAN INSTITUTE OF PHYSICS

ARTICLES IN PHYSICS gives you immediate access to more than 30,000 scientific and technical publications — including those published by:

◆ THE AMERICAN PHYSICAL SOCIETY
◆ AMERICAN ASTRONOMICAL SOCIETY
◆ MATERIALS RESEARCH SOCIETY
◆ OPTICAL SOCIETY OF AMERICA
◆ AMERICAN INSTITUTE OF PHYSICS
◆ INSTITUTE OF PHYSICS PUBLISHING, UK
◆ AMERICAN ASSOCIATION OF PHYSICS TEACHERS
◆ AMERICAN VACUUM SOCIETY
◆ LES EDITIONS DE PHYSIQUE
◆ ACOUSTICAL SOCIETY OF AMERICA
◆ AMERICAN ASSOCIATION OF PHYSICISTS IN MEDICINE
◆ AMERICAN CRYSTALLOGRAPHIC ASSOCIATION
◆ ASTRONOMICAL SOCIETY OF THE PACIFIC
◆ INSTITUTE OF NOISE CONTROL ENGINEERING
◆ INTERNATIONAL CENTRE FOR DIFFRACTION DATA
◆ THE SOCIETY OF RHEOLOGY

Articles in Physics is also an excellent source for material in disciplines other than the physical sciences. Researchers and librarians around the world can obtain articles rapidly via mail, fax, ARIEL, or the Internet. Turnaround time for in-house titles is 24 hours.

The solution to your need for research information in the engineering sciences

APPLIED MECHANICS REVIEWS

Each monthly issue of AMR contains approximately 1,400 article abstracts in mechanics and related fields from 450 research journals worldwide. All abstracts are arranged by a comprehensive subject classification scheme with extensive cross-indexing. AMR editors select acclaimed experts to contribute book reviews — about 20 per issue. A separate annual index is included in your subscription.

YOUR SUBSCRIPTION TO AMR PROVIDES . . .

- **In-depth Review Articles** — authored by leading researchers, refereed by AMR’s prestigious Board of Associate Editors.
- **Abstracts** — 1,400 subject-classified abstracts from some 450 international journals, selected by technical editors actively involved in research.
- **Book Reviews** — experts in the field critically evaluate selected books. Other books and conference proceedings are described.
- **Cumulative Author and Subject Indices** — are provided in the Annual indices which includes all co-authors, and up to four subject entries per article for the entire year. Plus . . . an indispensable alphabetical keyword index.

The ideal companion to your AMR subscription and dynamic electronic research tool

AMR INFOBASE OF JOURNAL LITERATURE ON CD-ROM

Containing almost 84,000 citations from AMR’s journal literature section, which draws from some 450 international journals, the NEW AMR CD-ROM is the ultimate tool for accessing engineering literature. The seven years of engineering literature (1989-1995) contained on the AMR CD is easily searchable using convenient, pull-down menus or Boolean commands for quick searches.

SOME SCIENTIFIC ACHIEVEMENTS SPEAK VOLUMES

In every library there should be a first place researchers, students, teachers, and librarians turn to find information on any scientific or technical subject. A place where the inspiration for starting a research project, the supporting evidence for a paper, or the authoritative answer to an intriguing question can always be found.

More than ever, the new Eighth Edition of the McGraw-Hill Encyclopedia of Science & Technology is that place...

- 1,600 new or totally revised articles
- 1,750 new or enhanced illustrations
- New contributors, including four recent Nobel Prize winners
- Completely revised and updated bibliographies in each volume
- NEW! An Activities Guide to help teachers and librarians encourage students in scientific exploration

No library should be without the McGraw-Hill Encyclopedia of Science & Technology, Eighth Edition—the first science reference that's a scientific achievement in its own right.

Learn more about the 8th Edition at www.mhreference.com

Special Prepublication Offer—
Save Over $200
Special prepublication price $1,750 through 5/31/97; $1,995 thereafter.
ISBN: 0-07-911504-7
Acoustics, sound, and vibration relate to everything from the design of a concert hall to the workings of a stereo system to the intricacies of the human ear. For the first time ever all aspects of acoustics are brought together in one reference—nothing available compares to this work for breadth of coverage. The encyclopedia includes coverage of the "engineering" aspects (aerodynamics and jet noise, interaction of fluid motion and sound, infrasound, ultrasonics, quantum acoustics, etc.) as well as the "scientific" aspects (auditory function, acoustical properties of the outer and inner ear, psychological speech perception, music and musical acoustics, hearing and sound perception among vertebrate/invertebrate animals).

KEY FEATURES:
- The only reference of its kind available—spanning 167 chapters.
- Brings together the world's experts on all aspects on the broad topic of acoustics.
- Each chapter begins with a general introduction for the layperson and most are written with an applications approach rather than a theoretical one.
- Each part is a separate handbook which breaks down the total coverage between the fundamentals and applications.

CONTENTS:

The MIT Press

The European Legacy: Toward New Paradigms
Edited by Sascha and Ezra Tamar
"This official journal of the International Society for the Study of European Ideas is Eurocentric in the best sense: not by claiming its focal place to be the wellspring of all civilization, but by focusing on the peculiarities of the European Tradition in trying to understand the continent's current struggles. This promises to be a valuable cross-disciplinary tool for historians, political scientists, and philosophers." — Library Journal
Published 8 times per year in March, April, May, July, August, October, November and December. ISSN 1084-8870. Volume 2 forthcoming. 1997 rates: $80 Individual; $390 Institution.

The Harvard International Journal of Press/Politics
Edited by Marvin Kalb and Pippa Norris
"A refereed journal with an eminent editorial board, this quarterly concentrates on journalistic practices in relation to American politics and policy at the federal level... very readable and will be of interest to lay readers curious about the mutual influences between journalists and politicians... a good choice for all academic libraries and most large public institutions." — Library Journal
Published quarterly in winter, spring, summer and fall. ISSN 1081-180X.

Terra Nova: Nature & Culture
Edited by David Rothenberg
"... built around a worldview rather than an academic discipline... Terra Nova is a fresh literary celebration of the complexities of nature and an examination of man's place in, relation to, and understanding of those complexities... One of the top ten new magazines of 1995... this new journal deserves a place in larger libraries, public or academic." — Library Journal
Published quarterly in winter, spring, summer, and fall. ISSN 1081-0749.

SOME THINGS
AT SCHOENHOF’S HAVEN’T
CHANGED SINCE 1856. Eschenbach, Goethe,
Grimm, Hoffmann, Kleist, Lessing, Schiller and Vogelweide are still on our shelves. In 1997,
the rest of the European literary world, classic and contemporary, sits alongside them. Our
Harvard Square bookstore stocks the largest selection of French, Spanish, German and Italian
literature and serious non-fiction of any U.S. bookstore. Our Classical Greek, Latin, Russian,
and Portuguese selections are equally extensive, and we are one of the few American
booksellers who offer titles from Scandinavia and Eastern Europe. ARAUCANO,
BENGALI AND CAJUN ... XHOSA, YUPIK AND
ZULU – IN ALL, 300 LANGUAGES AND DIALECTS.
Our mono-lingual, multi-lingual and specialized dictionaries, grammars and learning materials
come from publishers and bookstores, mission schools and linguaphiles: over 2,000 different
sources. We have looked for a larger language reference selection than ours. We have yet to
find one. Anywhere. SERVICES ESSENTIAL TO LIBRARIES
AND INSTITUTIONS ACROSS NORTH AMERICA
ARE ROUTINE FOR US. We import from fifty countries, we consolidate
international orders, we bill in dollars, we special order daily, we provide quotations and
bibliographic research, we maintain a 53,000-title on-line database, we verify accuracy and
condition, we have a large stock ready for UPS shipment. All it takes is one phone call.

"I think that the Blackwell's electronic Journals project will fundamentally change the world of publishing. Libraries and scholars..." — George Lapsans, Deputy Director, Cleveland State University Library

Elect to join the future. Call Blackwell's today.

BLACKWELL'S

Electronic Journal Navigator

Seamless and Integrated Access to the World of Electronic Journals

At Blackwell's we recognize the significant and growing importance of electronic journals in information access. That's why we are proud to bring you Blackwell's Electronic Journal Navigator: a single point of access, reference, control and management for all of your electronic Journals subscriptions. The service is accessible over the Internet and provides a Worldwide Web browser. We have a global network of servers that provide you with instantaneous access to the full text and abstracts of peer reviewed scholarly electronic journal articles, regardless of their physical format, location or publisher.

Library users benefit from a single access and authentication point for all electronic journals. A single search interface and extended browsing functionality enable quick identification and delivery of full text electronic articles direct to their PC.
Hard-to-Obtain Books?
MIDWEST LIBRARY SERVICE
Won't Take "NO"
For An Answer

We do not accept publishers' OP, NOP, and TOS reports without further research to determine their validity. Our research specialists are dedicated to locating hard-to-obtain titles. Their efforts consist of:

1. Verification of customer’s information in BIP, Forthcoming Books, OP-OSI, CBI, etc.
2. Telephone confirmation from the publisher when there is evidence of availability.
3. Query the library when order information is in doubt.
4. Searching the market for out-of-print titles.
5. Checking for titles available in the U.K. which are often declared out-of-print in the U.S. Obtaining these books is part of our goal of “maximum fulfillment.”

By diligent research we are able to locate many book orders that would otherwise be lost due to publishers' bad reports, inadequate research, or database dead-ends. Our researchers take over the hunt for titles where computers leave off. We will not cancel an order until we determine that a book is truly unavailable.
