SwetsNet

Electronic journals
now you can streamline ordering and access!

Growing numbers of electronic journals bring with them new challenges for library managers and end users.

SwetsNet is a major new service, providing a single source for accessing a broad range of publishers' electronic titles.

SwetsNet offers:

- browsing of contents of specific journal issues
- full searching across all titles in SwetsNet or those subscribed to by your library
- searching of tables of contents and abstracts
- regular management information
- full information and support services
- simplified password administration
- SwetsNet is accessible via the WWW

For further information and trial access, contact Brian Noone at 800-447-9387

Presenting an in-depth study of all aspects of organic conductive materials from John Wiley and Sons...

**HANDBOOK OF ORGANIC CONDUCTIVE MOLECULES AND POLYMERS**

Edited by Hari Singh Nalwa, Hitachi Research Laboratory, Hitachi Ltd., Ibaraki, Japan

"A remarkable effort...the scope and detail offer something of importance to all readers..." — Alan Heeger, Prof. of Physics & Materials Engineering, University of California, Santa Barbara

Organic materials, capable of conducting electricity, have numerous applications in telecommunications, electronics, materials science, chemistry and physics. Written by international experts in the field, this handbook brings together, in four self-contained volumes, all aspects of conductive and superconductive polymers and organic molecules including chemical and physical properties, synthesis, technology, applications, history, and current research.

As this area continues to evolve, its research touches upon many related disciplines with the results often spread throughout the scientific literature. Drawing on over two decades of pioneering research, the Handbook answers the needs of the scientific community by providing the first multidisciplinary single source containing all relevant information on conductive organic molecules and polymers. While each of the four volumes stands alone, together the set represents an invaluable resource for students and scientists in polymer science, chemistry, solid-state physics, materials science, biology, electronics, and photonics.

**Special Features**
- The most current and comprehensive information on organic conductive materials
- 13,300 + bibliographic citations
- Fully cross-referenced articles to facilitate information searches for particular topics
- Thousands of illustrations, photographs, tables, chemical structures, and equations

4-Volume Set:
- 0471-96275-9 • July 1997
- Cloth • Ca 3,600pp. • $840
  (intro. price through 9/97) $650 (after 9/97)

Volume 1: Charge Transfer Salts, Fullerenes and Photoconductors
- 0471-96593-6 • Ca 900pp.
  $215 (through 9/97) $260 (after 9/97)

Volume 2: Conductive Polymers: Synthesis and Electrical Properties
- 0471-96594-4 • 866pp.
  $215 (through 9/97) $260 (after 9/97)

Volume 3: Conductive Polymers: Spectroscopy and Physical Properties
- 0471-96595-2 • Ca 900pp.
  $215 (through 9/97) $260 (after 9/97)

Volume 4: Conductive Polymers: Transport, Photophysics and Applications
- 0471-96813-7 • Ca 900pp.
  $215 (through 9/97) $260 (after 9/97)

Available through your vendor.

We're CARL. Get to know us.

CARL is the company that thousands of libraries and millions of people call their partner. Some people know us for the CARL System integrated library management solution.

Some people know us for Readers' Advisory products.

We're also the company that delivers imaginative GUI products.

And now people are getting to know CARL as the leading provider of landmark databases.

No matter how you know us, we're the partner libraries count on for innovative technology solutions all delivered with a decidedly human touch. We're CARL. Your partner for progress. Call us.

Access
AIP Journals
Online in 1997

In 1997, subscribers to any AIP print journal will enjoy free access to a full-text electronic version on the World Wide Web.
The journals will be online 24 hours a day, seven days a week, with most titles available more than three weeks before their print versions. Adobe Acrobat® software will be used to view the journals as PDF files.

Available journals include:
♦ AIP journals
  • Applied Physics Letters
  • Chaos
  • Journal of Applied Physics
  • Journal of Chemical Physics
  • Journal of Mathematical Physics
  • Physics of Plasmas
  • Physics of Fluids
  • Review of Scientific Instruments

♦ AIP translation journals
  • JETP Letters
  • Journal of Experimental and Theoretical Physics
  • Low Temperature Physics
  • Physics of Particles and Nuclei
  • Physics of the Solid State
  • Semiconductors
  • Technical Physics
  • Technical Physics Letters

For complete sign-up and service information visit AIP on the Web: www.aip.org

ARTICLES in PHYSICS
A DOCUMENT DELIVERY SERVICE FROM THE AMERICAN INSTITUTE OF PHYSICS

ARTICLES IN PHYSICS gives you immediate access to more than 30,000 scientific and technical publications — including those published by:
♦ THE AMERICAN PHYSICAL SOCIETY
♦ AMERICAN ASTRONOMICAL SOCIETY
♦ MATERIALS RESEARCH SOCIETY
♦ OPTICAL SOCIETY OF AMERICA
♦ AMERICAN INSTITUTE OF PHYSICS
♦ INSTITUTE OF PHYSICS PUBLISHING, UK
♦ AMERICAN ASSOCIATION OF PHYSICS TEACHERS
♦ AMERICAN VACUUM SOCIETY

♦ LES EDITIONS DE PHYSIQUE
♦ ACOUSTICAL SOCIETY OF AMERICA
♦ AMERICAN ASSOCIATION OF PHYSICISTS IN MEDICINE
♦ AMERICAN CRYSTALLOGRAPHIC ASSOCIATION
♦ ASTRONOMICAL SOCIETY OF THE PACIFIC
♦ INSTITUTE OF NOISE CONTROL ENGINEERING
♦ INTERNATIONAL CENTRE FOR DIFFRACTION DATA
♦ THE SOCIETY OF RHEOLOGY

Articles In Physics is also an excellent source for material in disciplines other than the physical sciences. Researchers and librarians around the world can obtain articles rapidly via mail, fax, ARIEL, or the Internet. Turnaround time for in-house titles is 24 hours.

Complete Coverage in a Single Source

New Reference Works from Academic Press

Encyclopedia of Applied Ethics
Editor-in-Chief
Ruth Chadwick
Advisory Council
Dan Callahan and Peter Singer

http://www.apnet.com/ethics/
From a Review of Professor Andrew Edgar's Article "Sports Ethics."
"It is highly readable...does the job very well...there seems to be no useful publication in this area."
—Professor Robert Sharpe, Dept. of Philosophy
University of Wales at Lampeter, Dyfed, U.K.

Applied ethics, a subspecialty of philosophy, lends itself to an encyclopedia format because of the many industries and intellectual fields that it encompasses. The Encyclopedia of Applied Ethics is based on twelve major categories, such as Biomedical Ethics and Environmental Ethics. It is the most up-to-date and comprehensive compilation of writings based on applied ethics available and will serve as a foundation for the increased growth of this discipline and its use in professional, political, and personal situations. Each of the twelve categories are divided into discrete areas that are covered by 5,000-6,000 word articles. Each of the 281 articles begins with a definition of the subject and includes a table of contents, glossary of key terms, and bibliography. Second- and third-level headings, boxes, sidebars, and the like emphasize the reference-oriented nature of the material. Religious traditions that embody normative beliefs, as well as classical theories of ethics, are explored in a non-judgmental manner.

Comprehensive Biological Catalysis
A Mechanistic Reference
Edited by
Michael Simmott

http://www.apnet.com/catalyst/
Comprehensive Biological Catalysis: A Mechanistic Reference is a four-volume work that provides a comprehensive series of enzyme catalysis from a chemical perspective, including a thorough coverage of background chemistry.

The first volume concentrates on reactions of electrophilic carbon, phosphorous and sulfur, and Volume Two provides reactions of nucleophilic/carbanoid carbon. Volume Three highlights radical reactions and oxidation reduction. The final volume, or the "chemical lexicon," consists of clear explanations of alphabetically arranged, specialized terms and concepts.

KEY FEATURES

- Offers the first comprehensive treatment of enzyme catalysis from a chemical viewpoint—enzyme reactions are listed by chemical type, rather than biological process catalysed
- Carefully selected authors
- Rigorous reviewing and editing resulting in coherent, fluid, non-overlapping text
- Features excellent indexing
- Provides clear explanations of chemical concepts in "chemical lexicon"

Four-Volume Set
Prepublication Price: $750.00* (tentative)
September 1997, c. 1200 pp., $899.00 (tentative)

Encyclopedia of Human Biology
SECOND EDITION
Editor-in-Chief
Ranato Dulbecco

http://www.apnet.com/human/
Praise for the First Edition
"This outstanding tool is highly recommended for all libraries."
—LIBRARY JOURNAL

The Encyclopedia of Human Biology, Second Edition is the only reference work that provides complete coverage of the vast subject area of human biology.

Unlike other encyclopedias which treat a subject in numerous fragmented entries, the Encyclopedia examines each subject in a single, coherent article. Arranged alphabetically for easy access, each article—about ten pages in length—contains a brief outline, glossary of unusual terms, a short concise definition of the subject, an in-depth discussion of the topic, recent bibliography, extensive cross references to other articles in the Encyclopedia, and illustrations and tables including 75 color plates.

KEY FEATURES

- Second Edition of a highly regarded and widely used work, originally published in 1991
- More than 100 completely new topics added for this edition, e.g., AIDS, infectious Complications, Cancer Prevention, Cell Cycle, Gene Targeting, Techniques, Lyme Disease, In Vitro Fertilization, Polymers, Chain Reaction, Fractals, Programmed Cell Death (Apoptosis), Tumor Suppressor Genes
- Nine-volume set, including a separate index volume published simultaneously
- Approximately 5200 pages
- Articles written by more than 700 eminent contributors from around the world
- Renowned Editorial Board including nine Nobel Laureates
- 5000 glossary entries explain key terms
- Further reading lists at the end of each entry, more than 4000 references in all
- More than 3000 figures and tables complement the text, including 75 color plates

Nine-Volume Set
Prepublication Price: $1799.00* (tentative)
September 1997, c. 5200 pp., $2100.00 (tentative)
ISBN: 0-12-226970-5
*Prepublication price expires on December 31, 1997.

elect to join the future
SEAMLESS AND INTEGRATED ACCESS TO THE WORLD OF ELECTRONIC JOURNALS
At Blackwell's we recognise the significant and growing importance of electronic
information. That's why we are proud to bring you Blackwell's Electronic Journal Navigator,
a single point of access, reference, control and financial management for all of your
electronic journal subscriptions. The service is accessible over the Internet using a
Worldwide Web browser. We have a global network of servers that provide you with
instantaneous access to the full text and abstracts of peer-reviewed, scholarly, electronic
journal articles, regardless of their physical format, location or publisher.

Libraries subscribing to electronic journals benefit from simplified password and access
management; standard and customised journal usage analysis and management reports;
assistance with electronic archiving and electronic document delivery.

Library users benefit from a single access and authentication point for all electronic
journals; a single search interface and extensive browsing functionality; alerting services
and delivery of full text electronic articles direct to their PC.

Elect to join the future, with Blackwell's.

Question:
What Affects the Barotropic Stability of a Hurricane's Vortex?

Answer:

INFORMATION QUEST

Dawson announces Information Quest — a new Web-based information research, access and retrieval service supporting simple to sophisticated queries. This easy-to-use tool delivers one-stop access to scientific, technical, medical, and business electronic content conveniently at your desktop.

Information Quest provides powerful, full-text indexing and searching capabilities through a state-of-the-art search engine. Timely e-mail notices of article availability based on your specific search criteria. Automated tracking and detailed usage reports for collection analysis. Plus, the future ability for OPAC integration and on-line subscription ordering.

To learn how Information Quest can help you answer those difficult and unique questions, call 1-800-422-3223, or visit our Web site at http://www.informationquest.com.
Take a closer look at EBSCO!

We’re on the World Wide Web and ready to serve you with:

- Print, electronic and online serials subscription service from the world’s leading subscription agency, with 30 electronically linked offices in 20 countries
- Outstanding CD-ROM reference tools for libraries and businesses
- EBSCOhost® online reference center, hosted by the world’s leading information management company
- Fast, efficient document delivery, many delivered within 24 hours, from global resources in your choice of format.

If it's not Bowker's, It's not Books in PRINT PLUS™

Our new Windows edition with three Search and Browse modes makes Books in PRINT PLUS the easiest to use and the most powerful! Quickly find 1.3 million in print or forthcoming titles.

The only product with over 265,000 full-text reviews from 12 sources, including Publisher's Weekly, Booklist, Kirkus, and Library Journal makes it easier and faster for you and your patrons to find the additional titles that fit your needs. Reviews on new or forthcoming titles, like this one, give you valuable "preview" information.

Books in PRINT PLUS creates electronic order files for 25 different vendors, making your ordering process more efficient than ever before. It also creates purchase orders and special orders!

Complete publisher contact, SAN Number, and discount information at the touch of a keystroke saves you time and money.

Nine different display and output formats provide the flexibility and power you need, whether used in libraries by reference, technical services or patrons, or in bookstores to maximize your selling opportunities and compete effectively.

"We created TIPS® as an efficient way to manage collection development activities."

Lauren K. Lee, M.L.S.
Manager, Collection Development Services,
Brodart Co.

"TIPS helps organize my selections, offers timely information, and is a concise avenue for ordering."

Casey McPhee, M.L.S.
Collection Development Coordinator
Pasco County Library System,
New Port Richey, Florida

Make your new title selection process easier and more productive with Brodart’s TIPS (Title Information Preview Service). Through fifty years of serving the library community, we’ve learned that saving time is crucial for our library partners.

**TIPS:**

- consolidates your new title selection activities into one easy process

- gives you the information you need to make the best choices for your specific collection

- eliminates time-consuming searching and keying

Your TIPS selection lists of new and forthcoming titles are designed using your own criteria and can be based on review journals, publishers, series, authors and subjects. TIPS Plus offers full text reviews in several print and electronic formats from:

- Booklist
- Kirkus
- Publishers Weekly
- Choice
- Library Journal
- School Library Journal

Our experience tells us that you’d rather spend your time selecting titles than searching for them. Combine the experience of Brodart with the expertise of your professional staff. Together, we can construct a plan that will bring your collection development efforts to sure success.

This page will also contain data sets and software related to journal articles, as well as industrial ecology databases.

The MIT Press is pleased to announce the Journal of Industrial Ecology, a new, international, peer-reviewed quarterly designed to foster both understanding and practice in this emerging field. Interdisciplinary in its approach, the journal will provide a unique forum for the continuing exchange of information and opinions between environmental scholars, scientists, policymakers, and managers.

Premiering in Spring 1997, Journal of Industrial Ecology will delve into both the theory and the practice of industrial ecology, highlighting policy and strategic implications while at the same time describing programs and practices that spring from industrial ecological principles.

NOW AVAILABLE

SOME SCIENTIFIC ACHIEVEMENTS SPEAK VOLUMES

In every library there should be a first place researchers, students, teachers, and librarians turn to find information on any scientific or technical subject. A place where the inspiration for starting a research project, the supporting evidence for a paper, or the authoritative answer to an intriguing question can always be found.

More than ever, the new Eighth Edition of the McGraw-Hill Encyclopedia of Science & Technology is that place...

- 1,600 new or totally revised articles
- 1,750 new or enhanced illustrations
- New contributors, including four recent Nobel Prize winners
- Completely revised and updated bibliographies in each volume
- NEW! An Activities Guide to help teachers and librarians encourage students in scientific exploration

No library should be without the McGraw-Hill Encyclopedia of Science & Technology, Eighth Edition—
the first science reference that's a scientific achievement in its own right.

Learn more about the 8th Edition at www.mhreference.com

HANDBOOK OF U.S. LABOR STATISTICS:
Employment, Earnings, Prices, Productivity,
and Other Labor Data
FIRST EDITION
Eva E. Jacobs, Editor

Based on the Handbook of Labor Statistics, formerly published by the Bureau of Labor Statistics, this comprehensive research tool presents historical data on labor market trends. Tabulations prepared especially for this volume provide information on topics such as: working mothers by age of children; median income by family type; and employment status by educational attainment. Also, a special feature in this edition is the recently released Bureau of Labor Statistics Projections of Employment by Industry and Occupation, 1994-2005.

Standing Order No. 077.43472

"...an invaluable, authoritative source of time series for labor data that belongs in all business and social science reference collections."
- Michael Oppenheim
Government Information Services Librarian
John F. Kennedy Memorial Library
California State University, Los Angeles

About Eva E. Jacobs
Recognized as an authority on prices, consumer spending, and labor markets, Eva Jacobs served as the Chief of Consumer Expenditure Surveys at the Bureau of Labor Statistics for 21 years. Ms. Jacobs has also worked with the U.S. Department of Agriculture and with the Office of Personnel Management, where she is an advisor to a committee which is recommending a methodology to determine certain federal employee cost of living adjustments.

NORTH AMERICAN LABOR MARKETS:
A Comparative Profile
Commission for Labor Cooperation

North American Labor Markets: A Comparative Profile is the first in-depth study from the international Secretariat established under the North American Agreement on Labor Cooperation (the "labor side" of the NAFTA agreement). This clearly presented reference takes an in-depth look at the labor markets of North America and makes insightful comparisons on regional, country-by-country, and global levels.

Arranged in an attractive, easy-to-read format, this title contains authoritative information that highlights the similarities and differences among Canada, Mexico, and the United States.

North American Labor Markets: A Comparative Profile presents an intriguing analysis, essential for anyone conducting NAFTA-related labor research.

Standing Order No. 077.64094
French and Spanish Editions also available

"This will be a unique resource for the community of scholars and policy analysts which is growing up around the economic community that NAFTA has created."
- Michael J. Pires
David W. Striner Professor of Political Economy
Massachusetts Institute of Technology, United States

About The Commission for Labor Cooperation
The Commission for Labor Cooperation was established under the North American Agreement on Labor Cooperation (the "labor side" of the NAFTA agreement).
