This document has been made available through Purdue e-Pubs, a service of the Purdue University Libraries. Please contact epubs@purdue.edu for additional information.
A round the world, CD-ROM databases are revolutionizing information access. In fact, this new technology is already widely regarded as a primary resource in any well-equipped library, winning overwhelming approval from patrons and library personnel alike in on-site trials.

As the leading publisher of biomedical databases on CD-ROM, Compact Cambridge can offer you such benefits as user-tested search software, flexible subscription options, and multi-disc handling hardware. Revolutionize your library with any of the dynamic databases listed below—all available to you for a 30-day no-risk evaluation.

**Compact Cambridge MEDLINE**

Our exclusive software enhancements have made this the easiest-to-use, most flexible version of the National Library of Medicine's MEDLINE database available on compact disc. And now, our cost-saving subscription options make it the easiest to afford as well. Option A includes current-year MEDLINE quarterly updates, and backfiles for 9 previous years. Option B gives you current-year MEDLINE, monthly updates, and backfiles to 1966. With Option C you get current-year MEDLINE and monthly updates, with backfiles available at a flat fee for each year.

**Drug Information Source**

Compiled in cooperation with the American Society of Hospital Pharmacists, this database gives you three comprehensive resources: *AHA Drug Information, Handbook on Injectable Drugs*, and the complete *International Pharmaceutical Abstracts* (IPA) database to 1970. New subscription options let you choose your coverage. Option A gives you the complete database, updated quarterly; Option B includes IPA only, also with quarterly updates.

**PolTox: Pollution and Toxicology Database**

By linking 7 major pollution and toxicology databases, PolTox gives you unprecedented access to information on toxic substances and environmental health. In a single search, you can cover 10 years' worth of data drawn from: Pollution Abstracts • Toxicology Abstracts • Aquatic Pollution & Environmental Quality (Part 3, Aquatic Sciences & Fisheries Abstracts) • the TOXLINE subfile • Ecotoxicology Abstracts • Health & Safety Science Abstracts • and the toxicology section of Food Science & Technology Abstracts. Updated quarterly.

**Consult: Scientific American Medicine**

Now available from Compact Cambridge. CONSULT gives you the entire 2,300-page text of Scientific American MEDICINE on a single compact disc. Comprehensive chapters covering diagnosis, treatment, drug dosage, lab values, and other topics in internal medicine are supplemented by full-color photographs, X-rays, line drawings, and tables from the printed text. (EGA graphics capability is necessary to view figures.) The DISCOTEST library of interactive patient management problems is also included. Updated quarterly.

**Life Sciences Collection**

Abstracts drawn from over 5,000 international sources provide comprehensive, interdisciplinary coverage of 10 fields across the life sciences—animal behavior to virology and AIDS. Updated quarterly.

**PDQ: Physician Data Query**

This database provides the most comprehensive source of current cancer treatment information available today, including every therapeutic option and treatment protocol, plus a valuable directory of resource personnel. Compiled by the U.S. National Cancer Institute and updated quarterly.

**CANCERLIT**

An indispensable source of published research, CANCERLIT covers all aspects of cancer, from epidemiology to diagnosis and treatment procedures. Compiled by the U.S. National Cancer Institute and updated quarterly.

How to take the anxiety out of finding back volume journals.

Our vast warehouse and comprehensive inventory continually contain the subject disciplines you require. We stock complete sets and individual volumes, in-print or out-of-print. We also buy your duplicate journals and provide appraisals.

For over thirty years we've taken the anxiety out of finding back volume journals, and built our reputation on kept promises. So write, call, FAX or access us through the FAXON-LINX network at the mailbox "Jaeger" for further information.

At Ballen, everybody works in customer service.

Ballen's commitment to customer service spans from the boardroom to the stockroom. It's what sets us apart from other booksellers, and a big reason why we have the highest fulfillment and lowest return rates in the industry.

Whether you're a large university, small junior college, medical school or special library, we work with you to tailor our services to your specific needs. These include our Approval Program, which is one of the most comprehensive and efficient available. Or our Firm Order Services, which produce the fastest possible response to every order, no matter how obscure the title. And our Continuation/Standing Order Services, in which no volume in any series is ever overlooked.

Our philosophy is simple: the better we serve each customer, the more customers we'll have to serve. To see the difference constant attention to customer service makes, call Ballen at 800-645-5237.

MATSS — The Perfect Software System for Automated Acquisitions

As a well established source for the supply of books and cataloging services, Midwest Library Service has developed MATSS — a PC based, fully integrated software acquisitions system for libraries.

The software package consists of program diskettes, reference manual, on-site training and installation.

Features of MATSS:

- Multi-terminal version with a local area network.
- Order creation via downloaded MARC records from major bibliographic utilities and CD-ROM databases.
- Duplicate order checking.
- Orders in printed or BISAC (fixed/variable) formats for electronic transmission to vendors.
- Toll-free order transmission to Midwest Library Service.
- Integrated vendor statistics and fund accounting.
- Electronic invoicing on diskette for MLS invoices.
- User selected management reports.
- Automatic claiming/cancellation.

REDUCE YOUR SERIALS MANAGEMENT PROBLEMS.

Now you can use a few square inches of counter space to support a full serials management system. Remo, the first microcomputer based software package handles the full range of serials management functions. Remo offers automated claiming, routing management, analysis and user generated custom reports in a stand alone or network configuration.

Remo is the modern cost effective way to convert a time consuming manual process into a fast and easy check-in operation with full automated support. In the event of questions, an answer is only a phone call away on our toll free hot line.

Find out how Remo can help you reduce your serials management problems. Write for further information or call us at (800) 221-3306.

SYNERGY.
To libraries worldwide, we are much more
than the sum of our parts.

Why do leading academic, research and public libraries rely on Blackwell
North America? We could give a lengthy list. Our people.
Our technology. Our many services tailored precisely to library needs.
But in reality, you rely on us because we embody the best of the
booksellers’ tradition. Books and libraries are our business.

The Gmelin Handbook is the indispensible compendium and reference work in inorganic chemistry and related sciences. It provides a comprehensive, critically evaluated review of experimental and theoretical data of all chemical elements and their compounds, including organo-metallic compounds. Gmelin now consists of more than 600 volumes. Since 1982 all volumes have been published in English. The volumes illustrated are among the latest supplements.
