

Extension Series No. 58
Engineering Extension Department

Highway Post-War Planning

by

PYKE JOHNSON

President, Automotive Safety Foundation

AN ADDRESS TO
THE THIRTY-FIRST ANNUAL
ROAD SCHOOL AT PURDUE UNIVERSITY

January 29-31, 1945

DEPARTMENT OF ENGINEERING EXTENSION
PURDUE UNIVERSITY
LAFAYETTE, INDIANA

PURDUE UNIVERSITY regrets that because of the limited amount of paper available it has been forced to delay until the paper shortage is alleviated the publishing of the complete Proceedings of the Thirty-First Annual Road School. Under the law granting second-class mailing privileges to the Engineering Bulletin series a certain number of issues must be published each year. This address by Mr. Pyke Johnson, President of the Automotive Safety Foundation, has been printed, therefore, both because of its immediate importance and because of the necessity of filling the Bulletin series.

While the University is aware of the value of disseminating the information contained in the various speeches given to the Road School, yet it must recognize that co-operation in the Government effort to conserve paper is, in these unhappy days, of paramount importance.
