BLACKWELL'S

Collection Manager

In June 1997 Blackwell's introduced Collection Manager, the first interactive presentation of collection interest profiles.

Now we are focusing our attention on acquisitions workflow issues. With the cooperation of library development partners, Blackwell's is creating flexible selection and ordering features that we plan to introduce in early 1998.

Collection Manager - setting the standard for cooperative development.

BLACKWELL'S
Partnership Through Technology

Traditionally, Baker & Taylor has provided libraries with a larger selection than any other source. Currently, we represent over 66,000 imprints with over 1,800,000 titles from which to choose. And that's not all. We work behind the scenes to see that all orders, including frontlist and backlist titles, hardcover and paperback, plus those with value-added services, are delivered with unmatched speed. Back this up with coast-to-coast sales representation, experienced customer service and simplified invoicing and our numbers do more than tell the tale. They speak volumes about our firm commitment to our customers.

Presenting a world of science at your fingertips...

MEST 2.0 features
- More than 7,100 articles covering up-to-date information from leading scientists and engineers
- Thousand of illustrations and graphics
- Expand your searches to the Internet
- Outstanding new topographical maps
- The unparalleled authority only found in McGraw-Hill Encyclopedia of Science & Technology

NEW LOWER PRICE! BREAKTHROUGH NETWORK LICENSING!

We've made it easier to purchase the new MEST 2.0. Our new lower prices and our network licensing policy makes it more affordable, and eliminates the confusion over the number of workstations or site licenses to purchase. And with our special prepublication prices on all licenses, there will never be a better time to buy the best science reference available on CD-ROM.

Available through all wholesalers or by calling 1-800-722-3726; fax: 614-755-5645. For more information, contact Rebecca Seger at 212-337-5036
e-mail: rebecca.seger@mcgraw-hill.com

Sometimes things just belong together. Like birds and bees.

**Like DIALOG@CARL.**™

For the **first** time, any user can search the wealth

of **DIALOG databases** in near record time.

It is an easy-to-navigate, web-based interface developed by and

available **exclusively from CARL.** Now searching information-rich

**DIALOG databases** is point-and-click easy – a direct flight

to **limitless information access.**

And speaking of easy access, one agreement: with CARL

connects your library to DIALOG databases which are simply not available

anywhere else. With our **predictable annual pricing** offered on

a per connect, flat annual fee basis, your library can deliver unlimited

use of DIALOG@CARL, with no connect or per search fees.

So do the natural thing, give us a **buzz** or visit us online at [dialog.carl.org](http://www.against-the-grain.com)
Question:
What Affects the Barotropic Stability of a Hurricane’s Vortex?

Answer: INFORMATION QUEST

Dawson announces Information Quest — a new Web-based information research, access and retrieval service supporting simple to sophisticated queries. This easy-to-use tool delivers one-stop access to scientific, technical, medical, and business electronic content conveniently at your desktop.

Information Quest provides powerful, full-text indexing and searching capabilities through a state-of-the-art search engine. Timely e-mail notices of article availability based on your specific search criteria. Automated tracking and detailed usage reports for collection analysis. Plus, the future ability for OPAC integration and on-line subscription ordering.

To learn how Information Quest can help you answer those difficult and unique questions, call 1-800-422-3223, or visit our Web site at http://www.informationquest.com.

ENCYCLOPEDIA OF ENVIRONMENTAL ANALYSIS AND REMEDIATION

8-VOLUME SET

Edited by
Robert A. Meyers, Ph.D., Ramtech, Inc., Tarzana, CA

With the growing concern over the environment, new industries and research areas have been developed to identify, monitor, and regulate environmental interactions as well as to determine and repair existing environmental damages. For both the expert and the newcomer, a quick, convenient, and comprehensive source is needed to answer questions on the rapidly increasing amount of environmental information. The Encyclopedia of Environmental Analysis and Remediation (EEAR), the newest work in the Wiley Encyclopedia Series on Environmental Science, responds to this need by providing its user with an in-depth examination of the entire environmental field in an A-to-Z eight-volume reference source.

Featuring extensive illustrations and references, this eight-volume encyclopedia covers all aspects of environmental analysis and remediation, discussing both manmade and natural environmental issues as well as associated aspects of engineering, legislative, and economic issues. Consisting of over 280 carefully reviewed, alphabetically arranged, up-to-date articles written by authorities in that particular area, this unique reference work is a convenient, extensive, and current guide to today and tomorrow’s most relevant environmental topics, including: Air Pollution Control, Environmental Law and Regulation, Environmental Sampling and Analysis, Hazardous Waste Remediation, Pollution in the Biosphere, Water Reclamation.

A Wiley - Interscience Publication.
ISBN 0-471-11708-0 • Ca 8,000 pp. in 8 volumes • March 1998 • Cloth $2,150 prepub. / $2,500 postpub.

SwetsNet

Electronic journals
now you can streamline ordering and access!

Growing numbers of electronic journals bring with them new challenges for library managers and end users.

SwetsNet is a major new service, providing a single source for accessing a broad range of publishers’ electronic titles.

SwetsNet offers:
- browsing of contents of specific journal issues
- full searching across all titles in SwetsNet or those subscribed to by your library
- searching of tables of contents and abstracts
- regular management information
- full information and support services
- simplified password administration
- SwetsNet is accessible via the WWW

For further information and trial access, contact Brian Noone at 800-447-9387
A landmark reference for the medical and health sciences...

Encyclopedia of Biostatistics

EDITORS-IN-CHIEF
PETER ARMITAGE University of Oxford, UK
THEODORE COLTON Boston University, USA

Wiley is pleased to announce the Encyclopedia of Biostatistics, an outstanding achievement in scientific publishing comprising over 1200 articles written by more than 800 contributors. It is a truly international work, with extensive coverage of statistical issues pertinent to life scientists, health care professionals and practising statisticians. Entries commissioned for the Encyclopedia of Biostatistics include basic statistical concepts, practical issues arising in research or medical administration and, at the other extreme, advanced methods and theoretical developments.

Key subject areas covered include:

- Clinical Trials
- Vital Health Statistics
- Epidemiology
- Human Genetics
- Statistical Models
- Computation
- Statistical Theory and Methods
- Health Service Research

- Includes contributions from leading authorities in academia, government and industry
- Written for the professional statistician as well as the layperson
- Covers topics of specific biostatistical interest
- Includes extensive, well thought out references

Pre-publication price: (approx) $1950.00
Price on publication: (approx) $2400.00

The Encyclopedia of Biostatistics can be ordered from all good medical and scientific bookstores. For a full prospectus please contact either of the following:

A New Service From Springer-Verlag Publishers

Springer-Verlag announces LINK, an innovative and broadsweeping Print and Electronic Journals Program. Electronic editions of more than 200 Springer journals are "linked" to the print editions of our journals. For 1998, Springer is waiving the access fees to these electronic full-text editions for institutional subscribers.

Journals across all disciplines are offered electronically — from Astronomy and Astrophysics to Mammalian Genome, European Journal of Biochemistry to Calcified Tissue International, and more. Different journals are offered in different full-text formats — including PDF, HTML, PostScript, and TeX — according to the distinct needs of the varying fields. Additional functionality, including fielded text files with deep SGML tagging and searchability, PDF-formatted images, links to related external sites and databases, supplemental material and other multimedia elements will also be available via Springer's WWW servers in New York and Heidelberg, Germany.

Institutions interested in registering for electronic access simply need to indicate that they would like to receive the electronic edition in addition to their print subscription. Orders can be placed with a subscription agency or directly with Springer. The subscribing institution will then receive an on-line license agreement with electronic access information for up to 25 concurrent users — at no additional fee for 1998.

By ordering additional access to electronic editions of our print journals, subscribers will be able to access all primary articles and view and download the respective journal files for usage by library patrons. Licenses to store journal data files and disseminate them within the networks of corporations or cooperating libraries will be available upon request.

For additional information about electronic access to any of the journals, you can access the LINK Web Site via the Springer Home Page at [http://link.springer-ny.com](http://link.springer-ny.com) or contact your subscription agent or Springer-Verlag directly.

ORDER VIA YOUR REGULAR SUBSCRIPTION AGENT OR THROUGH SPRINGER-VERLAG DIRECTLY:

- **Call** toll-free 1-800-SPRINGER, 8:30am to 5:30pm ET to speak with a Journals Customer Service Representative.
- **Write** Springer-Verlag New York, Inc., Attn: LINK, 175 Fifth Avenue, New York, NY 10010
- **E-mail** link@springer-ny.com
- **Visit** the LINK Web Site: [http://link.springer-ny.com](http://link.springer-ny.com)

**Reference #1442**

November 1997 / Against the Grain 35

<http://www.against-the-grain.com>
New from Ashgate

Who's Who and What's What in Wagner
Jonathan Lewsey

This comprehensive reference work explores the many complexities of character, plot and language in Wagner's operas, from Die Fens to Parsifal. The book is arranged alphabetically in the style of an encyclopedia. It includes succinct synopses for each of the 13 operas as well as 86 in-depth character studies and over 1,000 further entries about names, places and artifacts featured in Wagner's works.

The Encyclopaedic Dictionary in the Eighteenth Century
Terence M. Russell

In this essential new collection, numerous key scholarly writings on the subjects of architecture and allied arts and crafts are extracted from the major British encyclopedias of the age.

Volume 1: John Harris: Lexicon Technicum
Volume 2: Ephraim Chambers: Cyclopedia
Volume 3: The Builder's Dictionary
Volume 4: Samuel Johnson: A Dictionary of the English Language
Volume 5: Encyclopaedia Britannica: A Society of Gentlemen

Ashgate is a leading publisher of specialized scholarly monographs, references and texts in the humanities and social sciences. To learn more about Ashgate and to browse our extensive on-line catalog, please visit our Web site at:

http://www.ashgate.com

** Make sure to read the interview with Ashgate founder and Chairman Nigel Farrow in this edition of Against the Grain. **

SEAMLESS AND INTEGRATED ACCESS TO THE WORLD OF ELECTRONIC JOURNALS

At Blackwell's we recognise the significant and growing importance of electronic information. That's why we are proud to bring you Blackwell's Electronic Journal Navigator, a single point of access, reference, control and financial management for all of your electronic journal subscriptions. The service is accessible over the Internet using a Worldwide Web browser. We have a global network of servers that provide you with instantaneous access to the full text and abstracts of peer reviewed, scholarly, electronic journal articles, regardless of their physical format, location or publisher.

Libraries subscribing to electronic journals benefit from simplified password and access management; standard and customised journal usage analysis and management reports; assistance with electronic archiving and electronic document delivery.

Library users benefit from a single access and authentication point for all electronic journals; a single search interface and extensive browsing functionality; alerting services and delivery of full text electronic articles direct to their PC.

Elect to join the future, with Blackwell's.

The Dictionary of Art

Volumes: 34 • Articles: 41,000 • Contributors: 5,700 from 120 countries
Illustrations: 15,000 throughout the text
Bibliographies: 300,000 citations • Index: 720,000 entries • Pages: 32,600

Winner

1997 Dartmouth Medal (ALA/RUSA)
1996 Wittenborn Award for Excellence in Art Publishing (ARLIS)
1997 Wilson Award for Excellence in Indexing (ASI)

“The largest and most comprehensive reference tool on the visual arts that has ever been published.”

Dorothy Glass
CHOICE
January 1997

“Grove's new 34-volume Dictionary of Art reflects big changes in the politics, the history and the biases of our age.”

“The most ambitious art-publishing venture of the late 20th century, it is an awesome single source on world art... It is an invaluable acquisition for any serious art lover, indispensable for libraries or schools.”

Michael Kimmelman
THE NEW YORK TIMES BOOK REVIEW
August 24, 1997
"...vast and glimmering, the world's greatest monument to visual art.

"Surprises, corrections or new bits of information appear every few pages, frequently for the first time in English. So it's not at all hyperbolic to say the dictionary is the rarest kind of undertaking, one that makes you glad it happened during your life."

Alan G. Artner
CHICAGO TRIBUNE
October 13, 1996

"No more complete guide to the world's art exists; this is especially true of the range of cultures outside the West, both old and modern, such as Aboriginal Australia, Oceania or Ancient Egypt. There's no art publication in existence that gives the reader such richness of detail and coherence of organization."

Robert Hughes
TIME
November 4, 1996

"A major triumph...the outstanding reference tool for many generations."

Paula Frolich
Metropolitan Museum of Art Library
LIBRARY JOURNAL
September 15, 1996

"The Dictionary replaces all previous works of reference such as Thieme-Becker or The Macmillan Encyclopedia of Architects. A broad cultural survey like Diderot's Encyclopédie, it is a major contribution to intellectual and artistic life in its own right."

David Washin
THE ARCHITECTURAL REVIEW
London
November 1996

"The books are heavy, handsome, green—and subtly subversive. Though redolent of libraries, rolling bookcase ladders and learned erudition, the volumes of the dictionary, through the images they conjure, remind us that the visual matters more and more."

Paul Richard
THE WASHINGTON POST
October 16, 1996

"...one of the most important publishing efforts for related disciplines such as anthropology, archaeology, ethnology, theater, and the history of culture."

BOOKLIST
December 15, 1996
AIP’s Online Journal Service—

Creating a Whole New Research Environment

Subscribe to any AIP journal in 1997 or 1998 and you’ll get access to a powerful online edition of that journal, at no additional charge. It’s that easy. With the Online Journal Service (OJS), you’ll receive your Web version up to three weeks prior to print publication. It’s that fast.

The latest development that makes OJS more than just a digital equivalent of a print publication is a feature called “reference linking.” Available first with Applied Physics Letters Online and JETP Letters Online, reference linking lets you click on article citations, and link to the referenced article’s abstract in the SPIN or INSPEC databases. Such hyperlinks will let you exploit the real value of online journals for the first time.

Reference linking is just one part of a package of significant enhancements we’re now working on for the Online Journal Service. This upgrade, called Version 1.5, has been released for APL Online and JETPL Online and will be available on all OJS journals by January 1998.

Key features you’ll enjoy with Version 1.5 include:

► **Reference linking to both SPIN and INSPEC databases**—You can follow a reference link to any of nearly 80 journals in SPIN or—by special arrangement between AIP and INSPEC—to any of the more than 4,000 journals in INSPEC for records back to 1969.

► **Ten more years of SPIN**—Providing the search engine for OJS, SPIN had originally included digital records from 1985 to the present. Now you can access SPIN records from 1975 forward.

► **New download options**—Along with PDF (Portable Document Format) documents, you will now have the option of downloading and printing full-text PostScript files for each article available in OJS.

► **Additional links**—“See also” links will provide you with access to such related information as errata, multi-part papers, reader comments, and author responses to comments.

The AIP Online Journal Service includes FINET Plus, your gateway to SPIN and to Advance SPIN, which enables you to search abstracts from AIP, APS, OSA and other Member Society journals prior to publication. FINET Plus also gives you tables of contents for AIP and Member Society journals; news and information from national labs and science policy agencies; integrated, searchable directories from leading science organizations; and more.

The following journals are available via the Online Journal Service:

**AIP Journals**

► Applied Physics Letters
► Chaos
► Journal of Applied Physics
► The Journal of Chemical Physics
► Journal of Mathematical Physics
► Physics of Fluids
► Physics of Plasmas
► Review of Scientific Instruments

**AIP Translation Journals**

► JETP Letters
► Journal of Experimental and Theoretical Physics
► Low Temperature Physics
► Physics of Particles and Nuclei
► Physics of the Solid State
► Semiconductors
► Technical Physics
► Technical Physics Letters

To receive a Subscriber Agreement or for further information about the AIP Online Journal Service is available at www.aip.org/ojs/service.html.
You can also call 800-344-6902 or 516-576-2270.
What can EBSCOdoc offer you that other document suppliers can’t?

The world.

EBSCOdoc, the leader in full service document delivery, provides an electronically-linked global network of sources that no other supplier can match. These sources, along with excellent customer service, rapid delivery, state-of-the-art technology and competitive pricing put EBSCOdoc in a class by itself. So don’t settle for the frustration of limited, inadequate service or juggling several document suppliers to get what you need. Get all of the document services you need and want from a name you already know and trust — EBSCO.

*Coming this fall:* **CC Express** is a new, low cost, 24-hour document delivery service with electronic ordering from a searchable, online database. Volume discounts available.

Leadership

Faxon continues to assume the responsibility and risk of leadership to stay at the forefront of the rapidly changing information industry.

And our client partners continue to profit from our shared vision and unwavering commitment.

*Information Quest*, a new online searching, access and retrieval tool, offered through Faxon, delivers one-stop access to a wealth of scientific, technical, medical and business journals, as well as 7.7 million table of contents entries from over 12,000 journals published since 1990. Visit the Information Quest home page at [www.informationquest.com](http://www.informationquest.com)

*Attention Faxon Massachusetts Clients!*  
Faxon can now match a client's title list against a comprehensive database and produce a simple report that shows title, ISSN, quantity, order period, Subscription ID, and Catalog ID. See the *What's New* section of Faxon's web site ([www.faxon.com](http://www.faxon.com)) to find out about the *Electronic Journal Database Match*.

Partner with a company that has the courage to rise up and meet today's challenges. To find out more, please contact Faxon today at 1-800-766-0039, ext. 503 or e-mail: sales@faxon.com.

Now you can create your own recipe for collection development success...

Now small libraries can savor the benefits of a custom collection development service, designed specifically for smaller budgets.

**TIPS for Small Libraries** brings you all of the decision-making information you need in one comprehensive, easy-to-use selection list. You establish selection criteria based on your library's needs. We send you a customized selection list that will help your staff choose the titles most appropriate for your library's collection. With all of this information at your fingertips, you can make smart buying decisions and still have time for other collection development activities.

**TIPS selection lists offer you:**

- enhanced bibliographic information including subject categories, classification, review citations, media, publication date and much more.
- pre-pub and recently published titles.
- options for frequency and format.

**TIPS for Small Libraries** provides the ingredients you need for collection development success. You pick and choose what's right for your own unique recipe. Call today for more information.

African-American Biographical Database

This fall, Chadwyck-Healey will launch a monumental resource in African-American studies on the Web. Initially consisting of biographies from Chadwyck-Healey's acclaimed Black Biographical Dictionaries, the African-American Biographical Database will document the achievements and struggles of African-American individuals, communities, institutions, and organizations across America. Included are biographical portraits of every variety: national activists; state and local figures; prominent women; legal, medical, educational, business and other professionals; musicians, artists and writers; church and missionary leaders; social club and fraternal order members; reform organization members; former slaves; and more.

The African-American Biographical Database will feature:

- Over 40,000 biographical sketches of African-Americans by the end of its first publication year from over 350 monographs written between 1790-1950 and other sources including dictionaries, directories, slave narratives, newspaper accounts, internet resources, etc.
- Full-text searching of biographical information for use in research by librarians, political and social historians, specialists in American culture, editors and writers, genealogists, students of all levels, and the general public.
- Controlled index searching by person's name, date of birth or death, state, gender, place of birth, occupation, religion and source of information.
- Online accessibility to thousands of photos of African-Americans living between 1790 and 1950.
- Hot links to other websites containing biographical or genealogical resources.
- Bimonthly updates with additional source material.
- Prices start as low as $495 for an annual subscription.

It's the strength gained by
motion. The dynamic force
by which ISI® is — and has
been — meeting the
information needs
of researchers, librarians,
and information
specialists around the world.
For forty years, ISI has provided
comprehensive bibliographic data
on the most important research,
adapting our products and services
along the way in order to help
ensure your survival. And success.
Consistently improving
access to the ever expanding
volume of relevant, published
literature, no matter
what form it takes.
Working cooperatively
with publishers in order
to link bibliographic data with the full
text, no matter where it resides.
Continually evolving to the prevailing
technological standards of information
integration and delivery, no matter
what they might be.
And yet, what hasn't changed is the
nature of the information ISI provides:
expertly filtered content, consistently
selected for quality, relevancy, and timeliness.

ISI. Constant. Changing.

18 REASONS
more libraries
choose Bowker's
BOOKS IN PRINT®

An independent research firm conducting a national survey recently discovered that more libraries use the BOOKS IN PRINT family than any other source of book information.

Here are the top 18 reasons why:

1 You can serve patrons better.
   With BOOKS IN PRINT on CD, you can find any title, even if you have only fragmented information—a word from the title, the subject, the illustrator.

2 You can easily create bibliographies for patrons on demand.

3 You can describe titles to patrons since BOOKS IN PRINT products contain tens of thousands of annotations.

4 You can even read reviews to patrons, since BOOKS IN PRINT with BOOK REVIEWS gives you 265,000 full-text reviews from sources such as Library Journal, School Library Journal and Publishers Weekly.

5 Plus, BOOKS IN PRINT is so easy to use that patrons can help themselves—freely downloading information directly into your word processing programs.

6 It's available in more formats.
   Enjoy the speed and ease of BOOKS IN PRINT products on CD for Windows, MS-DOS and Macintosh.

7 Access our databases via site license or online through leading library vendors such as Ameritech, CARL, DRA, EBSCO, IAC, Innovative Interfaces, Knight-Ridder (DIALOG®), Lexis®-Nexis®, OCLC, OVID, and SilverPlatter.

8 Or choose the traditional reference books that have been a mainstay of reference sections for fifty years.

9 It's great for collection development.
   Titles forthcoming in 1-12 months or more are flagged to help you locate new titles that fit your collection.

10 It simplifies everyday processes.
   Speed through the verification process with fast access to ISBNs, titles, prices, authors, contributor information, and more.

11 Automatic print POs, cataloging records or electronic orders without re-typing.

12 Simplify record-keeping by downloading information directly into your word processing programs.

13 Save ordering data in a format 25 vendors will accept...not just Baker & Taylor.

14 Verify titles registered with the Copyright Clearance Center.

Plus, we've recently introduced...

15 The addition of audio and video titles to BOOKS IN PRINT and BOOKS IN PRINT with BOOK REVIEWS on CD.

16 BOOKS IN PRINT, JUST IN TIME—a new program that lets you choose a CD update schedule that meets your information needs...and your budget.

17 The inclusion of the entire OUT-OF-PRINT database on BOOKS IN PRINT with BOOK REVIEWS on CD.

18 A new multi-user pricing structure that economically gives access to BOOKS IN PRINT and BOOKS IN PRINT with BOOK REVIEWS to everyone on your staff who needs it.

To order or find out more:
To order—or ask about any of the products, features or enhancements outlined here—just give us a call, a fax, an e-mail or stop by our web site!
