E-commerce — A Collection Development Perspective — Part 1: Identification and Selection ........................................ 1
by Kent Mulliner — E-commerce can deal with the use of a network (especially the Internet) in the identification and selection of the information to be acquired, the delivery of resources, and the payment for materials. This article focuses on the first of these perspectives.

E-Commerce and Information Delivery ........................................ 16
by Judy Luther 1997 figures estimated Web-based retail sales at $2.5 billion, which is merely one tenth of one percent of the total retail sales of $2 trillion. Despite dramatic growth, e-commerce is still in its infancy as many of the rules of doing business are changing.

Against the Grain
Uncommon ...
Against the Grain is your key to the latest news about libraries, publishers, book jobbers, and subscription agents. ATG is a unique collection of reports on the issues, literature, and people that impact the world of books, journals, and electronic information.

Against the Grain
Unconventional ...
ATG is published six times a year, in the months of February, April, June, September, November, and December/January. A six issue subscription is available for only $40 U.S. ($45 Canada, $50 foreign), making it an uncommonly good buy for all that it covers. Make checks payable to Against the Grain, LLC and mail to:
