FEATURES

Charleston Conference Issue — Guest Editor, Robert Birch

Problems in the Pipeline: Forces of Change for Publishers, Distributors, and Libraries .......................... 1
by Bob Birch — There have always been pressures on and among the three key players in the distribution pipeline with each regularly seeking some new leverage or concession from one of the others.

Technology and Change in the Library Marketplace .............................................. 22
by Niko Pfund — Whenever the future of the book or the publishing industry is raised as a topic of conversation or debate, the eBook occupies a disproportionately large role in that discussion. What then to make of this emphasis on eBooks?

Understanding the Library Marketplace: A Whimsical Ramble On Human Understanding ............. 24
by Gary Shirko — Ask yourself, how comfortable are you in the library marketplace today? Do you feel that something momentous has happened?

Competition and Technology as Forces of Change in the Library Market .................................... 34
by Jay Askavich and Forrest Link — We have seen significant mergers of some book vendors and heard warnings of the imminent demise of others. Libraries, aware of these problems and anxious about the future of their suppliers, increasingly hear the clarion call of disintermediation via the Internet, viewing this prospect as a safety net should the current supply chain fail altogether.

Evolution of the Supply Chain in Academic Library Bookselling ........................................ 36
by Matt Nauman — Years ago libraries bought books from publishers or local booksellers. In a broader sense, the process went like this: authors wrote books, publishers published books, libraries placed orders, publishers delivered books, and libraries cataloged the books, put them on the shelves, and paid the publishers. Now, except in increasingly rare instances, the supply chain has evolved into a more complex process.

Choices for Libraries, Publishers, and Vendors ............................................................... 40
by Marifran Busiton — Today, libraries have even more purchasing decisions to make, than in the past. Among other things, libraries must decide whether to buy print or electronic; from whom to buy, e.g., publisher, vendor, or aggregator, or whether to purchase as a single institution or through cooperative arrangements with consortia or networks.

Joys, Horrors, and the Future of Library Acquisitions ..................................................... 44
by John M. Kistler — Despite the Internet, libraries are still necessary. Despite credit cards and online bookstores, jobbers continue to provide useful services. And despite price increases and the desire to cut out the middleman, publishers will continue to use jobbers to get books to libraries.

Library Acquisitions: Change and the Need for Communication Among Librarians, Distributors, and Publishers ......................................................... 52
by Jeanne Harrell — As we seek to provide the titles required by our students and faculty, libraries are employing a wide variety of methods. The traditional large approval plan will continue to be the most appropriate option for large academic and research libraries.

Op Ed — Opinions and Editorials .................................................. 56
We Don’t Need No Stinking Librarians by John Perry Smith

Back Talk ................................................................................................................................. 94
Without a problem, there is a blind groping in the dark by Anthony Ferguson

REVIEWS

From the Reference Desk ............................. 64
by Tom Gilson — Reviews of Reference Titles.

Oxford Companion to J.W.M. Turner. Ency-
CHARLESTON CONFERENCE ISSUE

REVIEWS (continued)

Monographic Musings by Debbie Vaughn — Mike Lichfield examines the Bhagavadgita; Papa Lyman educates us on Liber Rara Avis; Phillip Powell investigates high school wrestling and gay youth; Jennie Vaughn explores Obsessive-Compulsive Disorder and the Columbia Critical Guides; and Debbie Vaughn takes a look at children’s books dealing with cancer.

LEGAL ISSUES

Edited by Bryan Carson, Bruce Strach, and Jack Montgomery

Cases of Note ............................. 74
Battle of Rock Titans! Lie It Up! by Bruce Strach
Legally Speaking ........................... 75
Copyright, Tasini, and our new reality

PUBLISHING

by Bryan M. Carson
Questions and Answers .......................... 77

Copyright Column by Laura Gasaway — Some fascinating answers about photocopying out-of-print books and recipes among others!

Sense and Sensibility .......................... 82
Multi-volume Reference Sets: Have They a Future? by Margaret Landesman — If the acquisitions budget does not go up adequately - and there seems little reason to suppose it will - it will hold fewer titles. Libraries will buy the most critical titles. Therin lies the rub. Which are the critical titles?

Devil’s Advocate — Libraries in Science Fiction .......................... 78
by Bob Mohney — Bob considers what Science Fiction works have to say about libraries and the library function in the various futures they treat.

And They Were There ........................... 80
Reports from ACRL and IFLA Library Consortium Preconference.

BOOKSELLING

I User — Dear Amazon: ......................... 83
An Open Letter on the Academic Library Market by Rick Lugg and Ruth Fischer — Congratulations to Amazon.com on its entry to the library market this past month. As former library book sellers with more than 25 years experience on the academic side of that market, Ruth and Rick thought they’d welcome Amazon with a brief orientation to user expectations.

Books Are Us ................................. 86
Column Editor Anne Robichaux — This is a NEW COLUMN about fiction dealing with libraries, book sellers, publishers, etc. Send in YOUR suggestions!

Bet You Missed It .............................. 87
by Pamela M. Rose — What do DNA and spaghetti have in common? Read about it in this issue.

Pandora’s Box ................................. 87
by Jack Montgomery — A review of the 2001

AND VENDING

Legal Information Buyers Guide.

Issues in Vendor/Library Relations .......................... 89
Hamburgers, Minivans, and Databases: A Case Study by Bob Nardini — Success can be quite a problem. While overall it beats the alternative for a business, a new product or service that catches on and grows can make failure seem a really agreeable experience.

Public Prayers: ................................. 90
The Reverend Wishes and Desires of A Public Library Collection Development Librarian by Rodger Smith

Bremerton Postcard ............................ 91
by Tom Leonhardt — Tom is — guess what — busy at this time.

Group Therapy ................................. 92
by Rosann Bazirjian — Buddy Pennington is having trouble getting several popular titles on microfilm — Tina Creguer and Julia Gannnon respond.

INTERNATIONAL

International Dateline .......................... 93
by Anthony Watkinson

TECHNOLOGY AND STANDARDS

Edited by Sandra K. Paul and Albert Simmonds

Why Don’t We Do It on the Web?: .......................... 64
Online Book Request Forms by Mary Mallory — While it may seem like a logical next step from automating the catalog and putting up online interlibrary loan forms, putting library materials requests on the Web is not as simple as it sounds.

Drinking from the Fire hose .......................... 88
by Eleanor Cook — On the Nature of Keeping Things — In this world, there are the Keepers and the Throw-Aways. Librarians live at the heart of this tension as we manage collections of materials that have varying values for humankind. And not all librarians are Keepers! So many of our colleagues really live to weed. And of course, Nicholson Baker is the Castr of the Keepers!

Webworthy: ................................. 92
by Pamela Rose — Unique and interesting Websites organized by broad subject area. Entomology and Physics are two subjects in this issue.

ETC.

The Weakest Librarian by Ned Kraft
