"Your completed library collection today, will educate for tomorrow."
Take advantage of AIP's growing menu of online products and services.

Free trial access til year's end!
Extended Online Backfile
Six-year online archives (1991-1996) have been added to most AIP journals.
All 2001 subscriptions include a 4-year backfile (1997-2000) - but libraries may now choose each title with the extended 10-year backfile (1991-2000).
You have the option of subscribing to the expanded-archive version of each journal for an additional $50. For The Journal of Chemical Physics and Applied Physics Letters, the additional charge is $75.
For more information, see http://www.aip.org/press-release/jrn1_expand.html.

Save 25% with online journal subscriptions in 2001
In 2001, AIP will be increasing the discount we offer to libraries for "online-only" subscriptions from 20% to 25%. Libraries outside the U.S. will save even more, as there are no shipping costs associated with online editions. You'll also find that significant savings can be had when you choose AIP online combination subscriptions.

In addition, you may now subscribe to any of the 14 AIP-distributed Russian translation journals online. Electronic access has only recently been made available for many of these journals, and now you can receive an online subscription for about 1/3 off the price of print.

Online Usage Statistics
AIP and the American Physical Society are developing a Web-based usage-data report, available directly to library administrators by username/password. You'll be able to enter a date range and receive usage statistics for each journal to which you subscribe on our Online Journal Publishing Service. You'll discover how many articles are requested from each journal, along with the number of abstracts and tables of contents that have been accessed. You'll also learn the number of searches that were performed. Usage statistics for the year 2000 will be available online on December 1, with 1999 data soon to follow.

Consortia Licenses
AIP now offers licenses to academic consortia under favorable terms. Interested consortia are invited to contact Monica Dragovich at mdrago@aip.org.

For comments, questions, or inquiries on any AIP product, including journals, Conference Proceedings, and online document delivery, e-mail mktg@aip.org.

If you think we’re just a small company, you should see the size of Kathi’s rolodex.

At Emery-Pratt, Kathi is usually two steps ahead of everyone. She meets with publishers about exciting new books that aren’t even available to the public yet. And by the time the public does hear about them, she’s already shipping them off to our customers around the country. With so many publishing sources, we are better able to find all the books our library customers want the most. Somehow Kathi always knows what’s hot and where to find it. How does she do it? She says it’s experience. We think she might just have a sixth sense about it.

The next time you order books, give us a call. We’re sure Kathi can get them all for you.
