Pre-Conference Proceedings
of the
86th Annual
Purdue Road School

March 21-22, 2000

CO-CHAIRMEN

Charles F. Scholer
Professor, School of Civil Engineering
Faculty Representative, Indiana LTAP
Local Technical Assistance Program

Kumares C. Sinha
Professor, School of Civil Engineering
Director, Joint Transportation Research Program

CO-PROGRAM COORDINATORS

Thomas C. Martin
Program Manager, Indiana LTAP
Local Technical Assistance Program

Karen S. Hatke
Program Coordinator
Joint Transportation Research Program

Purdue University
West Lafayette, Indiana
# Table of Contents

1999 **Purdue Road School Highlights** .................................................................................................................... i

2000 **Purdue Road Planning Committee** ................................................................................................................. iii

2000 **Directory of Officials** ........................................................................................................................................... iv

2000 **Purdue Road School Program** ............................................................................................................................ ix

**Opening Session** ............................................................................................................................................................ 1

*Your Transportation Personality...Understanding Why Stakeholders' Transportation Interests* ........... 5

Cristine Klika, Commissioner, INDOT

**GIS As a Management Tool** ........................................................................................................................................ 9

**GIS as a Management Tool: City Perspective** ........................................................................................................... 13

John Burkhardt, Administrator, Maintenance Support, Department of Public Works,
City of Indianapolis

David Mockert, Administrator, Indianapolis/Marion County GIS, Department of Public Works,
City of Indianapolis/Marion County

Gary Vandegriff, Administrator, Street Maintenance Operations, Department of Public Works,
City of Indianapolis

**Transportation 2000: Not Just Highways Anymore** ................................................................................................. 47

*Indiana High Speed Rail* ............................................................................................................................................... 51

Dr. Tim Watson, Board Member, Indiana High Speed Rail Association

*The Benefits of Aviation and Local Airports* ................................................................................................................ 83

Maria Muia, Aeronautics Section Manager, Intermodal Division, INDOT

**Safety Issues** .............................................................................................................................................................. 87

*Road Safety Audits* ....................................................................................................................................................... 91

Patrick Hasson, Safety Engineer, FHWA Midwestern Resource Center

*Traffic Records Improvements* .................................................................................................................................. 99

Bob Zahnke, Director, Automotive Transportation Center, Purdue University

*The Three “E”s of Operation Lifesaver* ...................................................................................................................... 111

Thomas Kinser, State Coordinator/President, Indiana Operation Lifesaver

**MUTCD Update** ......................................................................................................................................................... 117

*Comparison of Indiana and Federal MUTCD* ............................................................................................................. 121

Tom Martin, Program Manager, Indiana LTAP, Purdue University

*Sign and Pavement Marking Retro-Reflectivity Standards* .......................................................................................... 155

Cathy Satterfield, Geometric Design and Safety Engineer, FHWA Midwestern Resource Center
LISTENING FOR SUCCESS .................................................................................................................. 161
Listening for Success ......................................................................................................................... 165
A. J. Koss, Facilitator, Innovative Training & Consulting
Stefanie Toth, Facilitator, Innovative Training & Consulting

RAILROAD CROSSING IMPROVEMENTS ......................................................................................... 171
Use of Locomotive Horns at Highway-Rail Grade Crossings ............................................................. 175
Alan Hallstrom, Chief Inspector, Federal Railroad Administration

CONTRACTING AND CONSTRUCTION ISSUES .................................................................................. 189
Expanded Polystyrene (EPS) as Lightweight Fill for Bridge Approach Abutments ................................. 193
Athar Khan, Chief Geotechnical Engineer, Materials and Tests Division, INDOT

TRAFFIC ISSUES/INSTITUTE OF TRANSPORTATION ENGINEERS ................................................ 201
Operation of Closed Loop Signal Systems .......................................................................................... 205
Darcy Bullock, Associate Professor, School of Civil Engineering, Purdue University

BACK TO BASICS - EROSION AND SEDIMENT CONTROL ............................................................... 215

ENVIRONMENTAL ISSUES ................................................................................................................ 219
Phase II Storm Water Developments .................................................................................................. 223
Lori Gates, Stormwater Coordinator, Office of Water Management, IDEM
Opportunities for Wetlands Waste Water Treatment at Transportation Facilities ................................. 229
Jimmy F. New, President and Founder, J. F. New & Associates, Wetlands Scientists
and Environmental Engineers

INDOT MEETING ................................................................................................................................... 235
INDOT Long-Range Research Focus Group Project ........................................................................... 241
Don Johnson, Technology Transfer Engineer, Federal Highway Administration
Dr. Barry Partridge, Chief, Research Division, INDOT
Kumares Sinha, Director, Joint Transportation Research Program, Purdue University

Video Camera Inspection System ......................................................................................................... 263
Dr. Bob McCullouch, Information Technology Administrator, Joint Transportation
Research Program, Purdue University

Performance Related Specifications for Concrete Pavement ................................................................. 281
Tim Bertram, Chief, Contracts and Construction Division, INDOT
Dr. Tommy Nantung, Pavement and Materials Engineer, Research Division, INDOT
Richard Smutzer, Chief, Materials and Tests Division, INDOT
Jason Weiss, Assistant Professor, School of Civil Engineering, Purdue University

FROM DULL TO DYNAMIC: TRANSFORMING YOUR PRESENTATIONS ........................................... 287
From Dull to Dynamic: Transforming Your Presentations ..................................................................... 291
Josh Boyd, Assistant Professor, Department of Communication, Purdue University

INFORMATION TECHNOLOGY UPDATE .......................................................................................... 295

PAVEMENT MAINTENANCE ISSUES .................................................................................................. 299
Ultra-Thin Whitetopping (UTW) for Pavement Rehabilitation ............................................................... 303
Mike Byers, Executive Director, Indiana Chapter, American Concrete Pavement Association
INTELLIGENT TRANSPORTATION SYSTEMS (ITS) IN INDIANA .......................................................... 317

MAINTENANCE ISSUES .................................................................................................................. 321

Maintenance Management Systems .......................................................................................... 327
  Mark Burton, Maintenance Management Supervisor, Operations Support Division, INDO
Zero Velocity Salt Spreader .......................................................................................................... 341
  Dr. Tommy Nantung, Pavement and Materials Engineer, Research Division, INDOT
Culvert-Slip-Liner Repair Method ............................................................................................... 357
  Richard Thomas, Operations Field Engineer, Vincennes District, INDOT
Culvert-Slip-Liner Repair Method ............................................................................................... 368
  Jerry Thompson, District Operations Engineer, Vincennes District, INDOT
Considerations for Pipe Replacement in Maintenance .............................................................. 373
  Russell Fowler, District Maintenance Field Engineer, Vincennes District, INDOT

BACK TO BASICS - SELECTION OF EARTH RETAINING SYSTEMS ........................................ 389

HIGHWAY ADMINISTRATION AND MANAGEMENT .................................................................. 393

CPAs Are Taking a New Look at Roads...What It Means to You .................................................. 397
  Randy Finden, Project Manager, Governmental Accounting Standards Board
Certification and CE Requirements for Highway Engineers and Supervisors: A Panel ............. 417
  Andrew Cunningham, Highway Liaison Manager, Local Liaison Division, Nebraska Department of Roads

FINANCING LOCAL PROJECTS ..................................................................................................... 427
