For every librarian who has longed for the ultimate truth on forthcoming in print and out-of-print books... your prayers have been answered. Presenting Title Source II. It is, very simply, the most comprehensive database for verified bibliographic information on over 2 million U.S. books. Available on the Web and updated daily, Title Source II puts deeper knowledge at your fingertips. Key word searches over 70,000 tables of contents and 500,000+ annotations. Delve into seemingly infinite review citations from all the major journals, or browse Library of Congress subject headings, LC and Dewey classifications, and General, Academic, and BISAC subject categories. You can even download MARC records for use with the library's local system. For more information, visit our Web site at www.btebis.com Title Source II. It's simply heavenly.

CAN YOUR WEB PAC DO THIS?

Speak in any language?
CARLweb uses Unicode-based architecture and can present any language—even with non-Roman characters.

Speak to children?
CARLweb is built by the interface design experts who built Kid's Catalog. CARLweb's reference pathfinders and easy searching capabilities are perfect for young searchers.

Speak to scholars as well as novices?
CARLweb presents powerful search capabilities with easy access interfaces.

Speak in multimedia?
CARLweb provides outstanding integration and presentation with your photo, sound, and video collections.

See how CARLweb meets the needs of all your users and staff. Visit us on the World Wide Web at www.carl.org or come to ALA Midwinter booth #1806.

For more information about CARL, call or visit our website.

Access for all.
At Academic Book Center, we build our Approval Plan Service around you... your library's very individual, very specific collection development profile.

It's not a formula. It's not a mechanized process. It's a human, one-to-one, book-in-hand review precisely executed to meet your criteria and unique perspective — all backed up by state-of-the-art computer systems.

We're helping libraries around the world build relevant and useful collections, efficiently. And we're delivering measurable results.

- Our Approval Plan customers enjoy return rates lower than 3.2%.
- Ninety-percent of new titles arrive within 30 days of publication.

With the comprehensive coverage of more than 1,200 domestic publisher imprints and optional coverage of 10,000 UK titles, we offer Approval Plans that support your collection strategies.

Your profile. Our resources. That's how great collections grow.

*Who is the woman in this profile? Name her in our online contest at www.acbc.com and you may be the winner of a classic set of mugs!

The Wiley Encyclopedia of Environmental Pollution and Cleanup
Concise 2-Volume Set

Edited by Robert A. Meyers, Ramtech, Ltd., Tarzana, CA

In today's world, the general public is confronted with environmental issues in ever-increasing frequency. This condensed version of the 8-volume Encyclopedia of Environmental Analysis and Remediation provides a quick and convenient source of information on environmental hazards and the various methods employed to detect and repair them.

Designed for anyone interested in environmental issues and structured to provide answers to questions on the hottest topics in environmental science, this work consolidates the existing literature into an easy-to-understand manner. Featuring extensive illustrations and references, this encyclopedia details all aspects of pollution measurement, risk assessment, cleanup, and disposal of water, air, soil, industrial and nuclear waste, and nuclear and chemical weapons.

Consisting of over 280 carefully reviewed, alphabetically arranged, up-to-date articles written by authorities in the that particular area, this unique guide examines today's and tomorrow's most relevant environmental topics, including:
- Air Pollution • Environmental Law and Regulation
- Environmental Sampling and Analysis • Hazardous Waste Cleanup
- Pollution in the Biosphere • Waste Reclamation • Health Effects of Pollution
- Transport of Waste • Nuclear Waste • Regulatory and Economic Policies

MECHANICAL ENGINEERING

Piping Handbook
Seventh Edition
Mohinder L. Nayar
0-07-047106-1 • $125.00
(Hardcover)

This bestselling guide to piping elements features the latest changes in piping design practice, material applications, and industry standards.

ENVIRONMENTAL ENGINEERING

Brownfields
Redeveloping Distressed Properties
Harold J. Rafson and Robert N. Rafson
0-07-057868-7 • $69.95 (Hardcover)

This guide provides expert information on real estate, assessment, remediation, monitoring, liability issues, and ISO 14000.

TELECOMMUNICATIONS

Telecommunications
Network Management
Haojin Wang
0-07-068170-8 • $60.00
(Hardcover)

Featuring a detailed overview of telecommunications, this book offers a systematic treatment of network management, standards, basic concepts, and current practices.

Desktop Encyclopedia of Voice and Data Networking
Nathan J. Muller
0-07-134711-9 • $49.95 (Paperback)

This vital reference provides communications professionals and beginners with clear, readable coverage of this fast-moving, acronym-riddled field.

CIVIL ENGINEERING

Hydraulic Design Handbook
Larry W. Mays
0-07-041152-2 • $115.00
(Hardcover)

The first comprehensive guide to practical hydraulic engineering, this all-inclusive compendium from the world’s leading experts also includes all relevant regulations.

Cranes and Derricks
Third Edition
Howard I. Shapiro, Jay P. Shapiro, and Lawrence K. Shapiro
0-07-057869-3 • $89.95 (Hardcover)

Now updated, this is the only comprehensive handbook on the selection, installation, and safe use of cranes and derricks on construction sites.

ELECTRONICS

Electronic Failure Analysis Handbook
Perry L. Martin
0-07-041044-5 • $99.95 (Hardcover)

The Handbook provides ready-to-use, insider information on both components and systems reliability testing, performance evaluation, and liability avoidance.

Amplifier Applications of OP AMP
Jerald Graeme
0-07-134642-0 • $59.00
(Hardcover/CD-ROM)

This book and CD-ROM package offers a complete workbench for designing and testing a wide range of common Op Amp applications.

Electronics Technology Handbook
Neil Sclater
0-07-058048-0 • $69.50 (Hardcover)

Explanations of cutting-edge topics such as wireless communications and high-definition TV are easy to grasp with this one-stop guide.

Get it Anytime—Online.

Obtaining the research articles you need from journals to which you don’t subscribe is easier than ever before, thanks to AIP’s online document delivery service. Now fast purchase and delivery of single articles is available to anyone on the Internet—and for a very low price.

Document delivery from the American Institute of Physics gives you access to over 100,000 articles from more than 35 of the most prestigious journals in science and technology. You can find the articles you need by browsing AIP’s Online Journal Publishing Service (ojps.aip.org) or SPIN database. You’ll also find links to additional databases, including INSPEC and MEDLINE.

Articles can be ordered via credit card on a secure online form, and every order is absolutely confidential. The Secure Sockets Layer (SSL) protocol, a security standard supported by the latest versions of Netscape and Microsoft web browsers, is your assurance of a trouble-free purchase.

Our online collection includes all AIP journals (beginning with January 1997 issues or earlier). It also includes most of the publications available from The American Physical Society, Optical Society of America, Acoustical Society of America, Society of Rheology, SPIE—The International Society of Optical Engineering, American Vacuum Society, American Association of Physicists in Medicine, and the American Association of Physics Teachers.

Give AIP a try the next time you need an article fast. To learn more, visit http://ojps.aip.org/jhtml/artinphys/aipmain.html. You can also call us at 516-576-2411 or e-mail mktg@aip.org.

Speed, convenience, and savings. All from your ultimate document source—the American Institute of Physics.

EBSCO Online®, the latest in a long series of electronic services from EBSCO Information Services, is putting a charge into academic libraries.

Available in 1999, EBSCO Online lets you identify, access, acquire and manage electronic journals from one convenient location. The Web-based service gives you easy-to-use administrative features and enables end-users to seamlessly access a wide range of electronic journals.

*Academic Search Elite™*, available on EBSCOhost®, offers more than 1,200 journals in full text dating back to 1990 -- more than any other competing database.

EBSCONET® Online Subscription Service lets you use the World Wide Web to manage your subscriptions. It provides immediate searching, ordering and claiming results on any personal computer anywhere in the world — without the need for additional hardware or software, except for a Web browser.

EBSCO. Powering your library with shockingly comprehensive electronic services.

All the information you need and want from a name you already know and trust.
A time-saving solution to your research needs...

**Applied Mechanics Reviews**

Monthly Journal
Each monthly journal issue of AMR contains approximately 1,550 article abstracts in mechanics and related fields from 475 research journals worldwide. All abstracts are arranged by a comprehensive subject classification scheme with extensive cross-indexing. In addition, AMR editors select acclaimed experts to contribute book reviews — about a dozen per issue. A separate annual index, which lists all abstracts and book reviews, is organized by subject, author, and alphabetical keyword.

A subscription to AMR provides...
- In-depth Review Articles — authored by leading researchers, refereed by AMR's prestigious Board of Associate Editors.
- Abstracts — 1,550 subject-classified abstracts from some 475 international journals, selected by technical editors actively involved in research.
- Book Reviews — experts in the field critically evaluate selected books. Other books and conference proceedings are described.
- Cumulative Author and Subject Indices — are provided in the Annual Index which includes all co-authors, and up to four subject entries per article for the entire year.

Plus... an indispensable alphabetical keyword index.

---

**AMR Infobase of Journal Literature on CD-ROM**

The AMR CD will help you save time and keep on top of the latest published journal literature.

- quick, easy access to over 100,000 classified journal article abstracts
- search capabilities by title, author, source journal, classification, author affiliation, keyword and more
- focused searches that produce more on-target "hits" than any competition

Containing over 100,000 citations compiled from AMR's journal literature section, which draws from some 475 international journals, the AMR CD-ROM is the ultimate tool for accessing engineering literature. The nine years of engineering literature (1989-1997) on the CD is easily searchable using convenient custom-designed query templates or Boolean commands for quick searches. The product offers users the capability of creating a Shadow File in which they can save their search result notes on diskette for later use with the CD. An extensive Help File offers users instant answers to their "How to" questions.

**Note:** The CD can be used by 10 simultaneous users over a network. Additional multi-user licensing which allows for simultaneous use of the CD (up to 127 users) is available to institutions for an additional $67.50 (per user). Call ASME for more information on multi-user licensing.
