Against the Grain

At the Turn of the Millennium

A Library Development Time-Line by
Elisabeth Knight — Modern electronic data-bases and the copier are just two of the enor-mous advances which have changed the way the library has been used. Consider some of the other kinds of changes that had to occur to make the library as it is today.

E-Commerce — A Collection Development Perspective

Parts 2 and 3 by Kent Mulliner — The completion of this fascinating series began in Novem-ber, 1998.

Ebooks: Report on an Ongoing Experiment

by Nancy J. Gibbs — Last spring, North Carolina State University Libraries experimented with the new electronic reading device technology. Here are some of their results.

Memory Lane

We are planning a Millennium Issue of ATG with the
about or do you remember the days of manual or electric
typewriters, electric erasers, or filing cards in the card catalog?

How about the days when librarians "shushed" everybody
and we didn't even have Wilson indexes? Or when all we had
were punch cards and no PCs.

Or maybe you remember what books were on the bestseller
list when you went to library school?

Do you remember someone or something that you want to share with us?
Make the Millennium Issue a real treat for all of us! by writing down some of
your memories or favorite moments. We would even love photographs.

“Linking Publishers, Vendors and Librarians”

Uncommon ...

Against the Grain is your key to the latest news about libraries, publishers, book jobbers, and
subscription agents. ATG is a unique collection of reports on the issues, literature, and people that
impact the world of books, journals, and electronic information.

Unconventional ...

ATG is published six times a year, in
February, April, June, September,
November, and December/January. A
six issue subscription is available for
only $40 U.S. ($45 Canada, $50
foreign), making it an uncommonly
good buy for all that it covers. Make
checks payable to Against the Grain,
LLC and mail to:
