Two Great Names
One Great Company

Blackwell's Book Services
Academic Book Center

The Blackwell Group Ltd
is pleased to announce
the purchase of
Academic Book Center.

Now you can have the best in library
acquisitions and collection development
support through a single source, as the
industry's two finest booksellers are
consolidated under one management.

While at the ALA conference, please visit us
at the Blackwell booth, #334, and meet
Daniel Halloran, the new president and
CEO of Blackwell's Book Services. We also
hope you will join us in extending best
wishes to Fred Philipp, who is leaving BBS to
take over the management of Blackwell's
Information Services in New York.

For more information about our plans for
the future of Blackwell's Book Services and
Academic Book Center, visit the BBS
website (www.blackwell.com) or the AcBC
website (www.acbc.com).
Does your relationship with your book supplier leave you feeling unfulfilled?

Incomplete orders. Late deliveries. Unresponsive service. Does it seem that your book supplier just doesn’t fulfill your needs? At Baker & Taylor, we understand your challenges, your goals and your day-to-day hassles. We provide faster delivery and prompt service; our unparalleled inventory of academic titles ensures it. So call us today and discover a more fulfilling relationship.

The American Chemical Society is pleased to announce the launch of Organic Letters, an exciting new journal offering rapid, brief reports on significant research in all areas of organic chemistry. Every other week, Organic Letters will provide you with...

- quality original research by respected scientists from around the world
- current, concise reports brought to publication in the shortest time possible
- extensive illustrations using color to highlight key chemical reactions and structures
- significant developments in physical organic chemistry, total synthesis, natural product isolation, theoretical organic chemistry, synthetic methodology, bioorganic chemistry, medicinal chemistry, spectroscopy, analytical methods in organic chemistry, and more.

Organic Letters is the first journal created by ACS in collaboration with SPARC (Scholarly Publishing & Academic Resources Coalition), an initiative of the Association of Research Libraries. SPARC was established to distribute scientific information faster and at significantly less cost to library subscribers.

Discover the New Speed Standard in Data Delivery

Organic Letters is simply the fastest way to receive quality reports on the latest research in organic chemistry. The journal will be published both in print and as a Web Edition. The Organic Letters Web Edition features Articles ASAP™ (As Soon As Publishable), making research available online even faster—up to five weeks before the print edition.

Subscribe today, or encourage your library to subscribe to this important new journal.

First issue in July 1999.

Editor-in-Chief: Anos B. Smith, III, University of Pennsylvania

Six million people have access to full-text journals on IDEAL — Do you?

Developed three years ago by Academic Press, IDEAL® is an online journal service that uses the Internet to greatly expand and improve access to scientific journals. Through licensing agreements with library consortia and academic and industrial networks, IDEAL® brings nearly 200 Academic Press, Churchill Livingstone, and W.B. Saunders Ltd. research journals directly to more than 30 library consortia encompassing over 800 libraries and institutions and an audience of more than 6 million users.

Authorized Users Can Now:

• Browse tables of contents and article abstracts from nearly 200 journals covering more than 30 subject disciplines
• View, search, print, and download complete articles without restriction for personal use or course packs, or for internal company business purposes
• Access related resources, including journal content—descriptions, editorial board listings, instructions for authors, and subscription information

A list of licensed consortia and member institutions is available at http://www.idealibrary.com/access.htm.

For more information visit the IDEAL® homepage at http://www.idealibrary.com/

Against the Grain / June 1999
Research for Today...
Discoveries for the 21st Century...

Get a jump on significant new findings—two weeks to almost three months before they appear in print—with Articles ASAP (As Soon As Publishable). Fully approved for publication, Articles ASAP are ready for your immediate use.

Draw on a rich, fast-growing archive of material. View articles in HTML or PDF format...as an abstract or full text. Link to interactive scientific databases. Manipulate molecular structures and other three-dimensional models.

Access a free sample Web Edition of your favorite ACS journal at pubs.acs.org to experience real-time science. Why wait for mail when you can Know It Now with Web Editions?
CatchWord – Why wouldn’t you?

- Over 350 journals online
- All issues available in PDF
- IP address validation and no passwords required for libraries
- No charge to libraries and over 80% of the journals free with a print subscription
- Direct links from OPAC to both journal titles or specific articles
- Full text searching
- No software to install

CatchWord – Who wouldn’t?

www.catchword.com
5,000 Years. 70,000 Events. One Source.

Chronology of World History is the ultimate timeline, stretching over five millennia, from 3000 BC to the present, cataloging the vast continuum of world history in virtually every area of human endeavor.

Chronology of World History

The brink of a new millennium: what better time to sum up the achievements (and the crimes) of Homo sapiens? The four volumes of the Chronology of World History—overwhelming in their abundance and detail—constitute the most complete and up-to-date chronology ever compiled.

This altogether new work represents the most ambitious and comprehensive chronology ever created. Whether your interest is music or monarchies, science or sports, you'll find authoritative and compulsively readable coverage here. You'll discover fascinating juxtapositions of events in a wide range of fields as the chronology unfolds, month by month and year by year.

Features:
- 3,109 fact-packed pages
- 70,000 events
- 1.8 million words
- 27 contributing editors
- 100-plus sidebars providing detailed, at-a-glance information about important people and events
- Rich representation of social, political, scientific, and artistic events and persons
- Thoroughly worldwide scope
- Full indexes for each volume
- Rigorous scholarly review of all material

The Encyclopedia of Electrical and Electronics Engineering

One Resource to Answer All Your Questions

Just Published

ABOUT THE EDITOR

JOHN G. WEBSTER, Ph.D., is Professor of Electrical and Computer Engineering at the University of Wisconsin, Madison. His many honors and awards include the Association for the Advancement of Medical Instrumentation, the AAMI Foundation Kaufman-Greatbatch Prize, and the University of Wisconsin Chancellor's Award for Excellence in Teaching. Dr. Webster is also the editor of the four-volume Encyclopedia of Medical Devices and Instrumentation and has developed 14 other publications.

The Engineering Edge in Research, Academia, and Industry

The Encyclopedia of Electrical and Electronics Engineering is a unique, comprehensive reference work that defines the entire discipline, bringing together the core knowledge from every one of the many fields encompassed by electrical and electronics engineering. The Encyclopedia comprises 24 volumes totaling about 19,000 pages and 1,450 expert articles arranged alphabetically by subject. Destined to become the standard reference in the field, this outstanding collection meets the needs of a broad group of engineers, designers, and research personnel from government, academic, and private institutions.

A sampling of the more than 1,450 articles on a remarkably wide variety of topics

Aerospace and Electronic Systems • Antennas and Propagation
Control Systems Technology • Ferroelectrics and Frequency Control • Fuzzy Systems
Lightwave Technology • Microelectromechanical Systems • Multimedia
Neural Networks • Nuclear Science • Oceanic Engineering • Optical Networks
Shielded Power Cables • Speech Recognition • Superconducting Microwave Technology
Tactile Sensors • Thin Film Circuits • Wind Power Plants

To see a complete Table of Contents and sample articles, please visit our Web site: www.wiley.com/eeee

Ulterior motive

Some companies provide bibliographic data—but what they really want is for you to spend money on their books.

That's why some won't include a book review with their data if it's negative. They may not provide you with forthcoming title data since they can't make sales right away. And their search engines may return titles prioritized by how easy it is for them to fill an order.

BOOKS IN PRINT, on the other hand, is the only objective source of data on books, audio books, video cassettes and publishers. Our single motive is to create the best possible database of information on books, audio cassettes and videos.

To order a CD, reference book, or web bibliographic resource that doesn't have ulterior motives, call

Grove's Dictionaries is pleased to announce the launch of the award-winning Dictionary of Art online, providing:

- New, easier-to-use interface and enhanced functionality offering Boolean searching.

- An unprecedented alliance with The Bridgeman Art Library now offers access to 30,000 searchable images rising to 100,000 by the end of 1999. Plus more than 12,000 links to color images.

- Regular updates incorporating new articles, research, and important events including new biographies of contemporary artists such as Damien Hirst, Rachel Whiteread, and Chris Ofili.

- Highlighted cross-references within each article help locate related information quickly.

- Special discounts for owners of the print Dictionary of Art.

“…if your patrons can use a well designed, current, web encyclopedia full of scholarly articles, ready-reference definitions, and cogent interdisciplinary essays on art, then this is the source for them.”

— Library Journal

“A remarkable step in the development of online research material.”

— Choice

Every month, we receive thousands of books. Billie Jo knows where each one goes.

Over the past 16 years, Billie Jo has worked in almost every department at Emery-Pratt. She currently supervises our receiving department. That’s where all the books are sorted and prepared to fill customer orders. It’s also where many of our specialty services take place. You see, we help our library customers by preparing their books to be “shelf-ready” before we ship them out. That includes paperback binding and reinforcement, bar coding, cataloging, theft detection devices and more. It’s just another way we try to make things a little easier for the libraries we work with.

Ask about our specialty services for your next order. Billie Jo will make sure it happens.

We can think of at least ten good reasons why you should use **Absolute Backorder Service** as your library’s primary source for journal completion.

We believe you’ll think of just one…… “Our commitment and dedication in being the best at what we do.”

We were going to make a list of all the reasons why you should use **Absolute Backorder Service** as your library’s back volume vendor, but we thought we would let our excellent service speak for itself. We’re proud of our experience, our knowledge, our dedication and our commitment to our clients.

Our courteous staff is always willing to assist you with your library’s back order fulfillment needs. We utilize three separate avenues to obtain material and we offer customized financial arrangements. What you see is what you get with Absolute. Our exclusive Automated Inventory is updated daily and allows you to view all our serial holdings which are listed specifically by volume and issue. You may even submit your order online!

Our **East Coast Exchange Program** is quickly becoming one of the best ways to dispose of your duplicates and unwanted material.

Okay, so maybe we gave you a few good reasons to use Absolute. Visit our website at [http://www.absolute-inc.com](http://www.absolute-inc.com) to see more of what Absolute will do for your library. You have everything to gain and nothing to loose but your unwanted material.

ENCYCLOPEDIA OF SPECIAL EDUCATION, Second Edition
Edited by Cecil R. Reynolds, PhD, ABPN, ABPP, Texas A&M University, and Elaine Fletcher-Janzen, PhD, Colorado Springs, CO

The First Edition was chosen the “Outstanding Reference Source of 1988” by the American Library Association

In the making for twelve years, this long-awaited revision of the Encyclopedia of Special Education offers a comprehensive compilation of authoritative information on the education of those with special needs.

New in this edition
• Comprehensive coverage of new legislation such as the Individuals with Disabilities Education Act (IDEA) and the Americans with Disabilities Act
• Cultural competence in Special Education—many new entries on Culturally/Linguistically Diverse Students
• New entries on rare diseases, service delivery, outcome based education, traumatic brain injury, assessment methods, international adoption, and neuropsychological sequelae of deprivation

Reviews of the first edition . . .
"A well-designed and up-to-date source . . . recommended for public, college, and university libraries serving undergraduates and graduate students in special education.”
—CHOICE

"Although special education as a field is relatively recent, its body of knowledge is already vast. Reynolds & Mans have done an outstanding job of charting the terrain.”
—American Libraries

WAIMH Handbook of Infant Mental Health
Edited by Joy D. Osofsky, Louisiana State Medical Center, and Hiram E. Fitzgerald Institute
For Children, Youth, and Families, Kellogg Center, MI

The first 18 months of life is the time of the greatest human development. The WAIMH Handbook of Infant Mental Health provides an in-depth look at psychological development during this critical formative period. This ground-breaking reference, assembled under the auspices of the leading international organization in infant development—the World Association of Infant Mental Health—gathers a multi-disciplinary panel of experts from around the globe to present the most current research in the field.

The WAIMH Handbook of Infant Mental Health encompasses four volumes spanning 54 chapters and over 2,500 pages.

Volume 1: Perspectives on Infant Mental Health • 0-471-18941-3 • $150.00
Volume 2: Early Intervention, Evaluation, and Assessment • 0-471-18944-8 • $150.00
Volume 3: Parenting and Child Care • 0-471-18946-4 • $150.00
Volume 4: Infant Mental Health in Groups at High Risk • 0-471-18947-2 • $150.00

The Complete 4-Volume Set: 0-471-18988-X • $600.00

Available through your vendor
Faxon is your ticket to expert electronic journal services ranging from comprehensive e-journal databases to a powerful web-based information delivery tool called Dawson Information Quest (IQ). Our latest e-journal resources and services include:

- **The License Depot** A comprehensive e-journal database management service which includes easy access to bibliographic information and licensing resources as well as prices and terms of online access.

- **Subscription Depot** A powerful web-based tool for managing your serials subscriptions right from your desktop. The Subscription Depot provides up-to-date access to all your transactions, including orders and claims. You'll also be able to search our global catalog of over 250,000 serials titles.

- **Dawson Information Quest (IQ)** IQ provides integrated web-based information delivery and powerful one-stop access to a wide range of electronic and print content. Features include enhanced searching capabilities, a new current awareness service called IQ Alerts, new delivery options including Pay-Per-View and fax document delivery, and rich new content from AIP, Springer-Verlag, Academic Press, and more. **Free trial now available at** [http://www.informationquest.com](http://www.informationquest.com)

- **Serials Update Service** Stay current on serials titles! This new service provides daily updates of bibliographic and/or order changes to serials titles with entries under both the old and new titles. **See for yourself under Information on Titles at** [www.faxon.com](http://www.faxon.com).

- **The Faxon Institute Industry Resources Webpage** Features hundreds of links to published research articles, publisher websites, library collections, and professional library associations and organizations. **Check it out under Industry Resources at** [www.faxon.com](http://www.faxon.com).

Faxon is part of the Dawson Group of Companies which also includes: Dawson Information Quest, EOS International, Quality Books Inc., and Turner Subscriptions—all companies involved in bookselling, subscriptions, web-based electronic information delivery, and library information management software and services.

For more information, contact your Faxon sales representative at 1-800-766-0039. Or visit us online at [www.faxon.com](http://www.faxon.com).
SUBSCRIPTION SAVINGS USING INTERNET-BASED SOLUTIONS

For well over a quarter century, Cambridge Scientific Abstracts journals have provided bibliographic access to over 7,500 sources of scientific data published worldwide.

Now, most of the 58 journals that we publish are searchable on the Internet, updated weeks or months before the print or CD version goes to press. Subscription advantages include:

- **15% savings** from electronic-only option, plus much higher savings in 2000
- **Perpetual rights** to data published during your subscription
- **1-year backfile** at no additional cost
- **Campus-wide access** for an unlimited number of users
- **Cost-effective alternative** for keeping up with 7,500 sources of scientific data
- **Option to access complete archive** cumulated from 10 – 30 years of data

For a sample copy or 30-day complimentary access to any electronic journal, please contact your subscription agent or Cambridge Scientific Abstracts:

FIVE REASONS TO SUBSCRIBE...

1. In-depth Review Articles – extended literature reviews in each monthly issue authored by leading researchers, refereed by AMR’s prestigious Board of Associate Editors.

2. Abstracts – 1,550 subject-classified abstracts from some 475 international journals in every issue. Selected by technical editors actively involved in research, all abstracts are classified in accordance with a comprehensive scheme with extensive cross-indexing.

3. Book Reviews – experts critically evaluate about a dozen books in each issue and summarize the contents of many others.

4. Annual Index – printed as a separate issue and providing author, subject, and keyword indices for review articles, book reviews and abstracts, as well as a host of other useful features.

5. Annual CD-ROM – containing over 100,000 citations compiled from AMR abstracts since 1989, which are searchable by title, author, source journal, classification, author affiliation, keyword, and more.

Searching for information doesn't have to be hard.

A Maze.

Amazing.

You have a choice when it comes to finding the full text of journal articles you want and need. You can use traditional electronic searching methods — entering and exiting multiple systems, backtracking, dead ends.

Or you can use EBSCO.

EBSCO's integration efforts will create a seamless search and retrieval option for you. You'll be guided to the full text in your library's collection, whether it appears in electronic format in an online journal or a database, or in a print journal.

Understanding information can be hard.
Finding it shouldn't be.
Save with Standing Order Plans!

Libraries entering new Standing Orders for the complete series — or one of our new subseries —

SAVE 10% on all volumes during the first year.

Pick the Plan that Best Suits the Needs of Your Patrons

AIP Conference Proceedings record the latest breakthroughs presented at scientific meetings, workshops, and symposia worldwide, and provide access to new discoveries well before traditional journals. Standing order customers receive each new Proceedings promptly upon publication, ensuring even faster access for their patrons. Now, four new standing order plans are available for libraries with more specialized collections. They give your patrons an advance look at the research in these important disciplines:

- Accelerators, Beams, and Instrumentation
- Astronomy and Astrophysics
- High Energy Physics
- Plasma Physics

The titles listed below offer examples of the topics covered in each subseries. We anticipate publishing 6-12 volumes per year in each subject area, and your standing order plan will begin with the newest titles published.

ACCELERATORS, BEAMS, AND INSTRUMENTATION
- Physics Potential and Development of mu-mu Colliders
- Symposium on Negative Ions
- Beam Instrumentation Workshop - 1998 (BIW-98)

ASTRONOMY AND ASTROPHYSICS
- Space Technology and Applications International Forum - 1999
- Tours Symposium on Nuclear Physics III
- Gamma-Ray Bursts: 4th Huntsville Symposium

HIGH ENERGY AND PARTICLE PHYSICS
- Particles and Fields: 6th Mexican Workshop
- Front End of the Muon Collider Workshop
- Particle Physics and Cosmology / High Energy Physics

PLASMA PHYSICS
- Laser Interaction and Related Phenomena: 13th International Conference
- Dense Z-Pinches: 4th International Conference
- Two-Dimensional Turbulence in Plasma & Fluids: Research Workshop

www.aip.org
To establish a standing order in any of these four new categories, give us a call at (516) 576-2411. You can also e-mail us at mktg@aip.org.
Encyclopedia of Food Science and Technology,  
Second Edition

Edited by: Frederick J. Francis,  
Department of Food Science, University of Massachusetts

Associate Editors: Christine M. Braun, Center for Consumer Research; Pavinee Chinvachoti, University of Massachusetts; Fergus M. Clydesdale, University of Massachusetts; Michael P. Doyle, University of Georgia; Kristen McNutt, Consumer Choices, Inc.; Carl K. Winter, University of California

Review from the First Edition...

"This four volume work fills a definite need in the food science and technology literature...I have no doubt that this Encyclopedia will become one of the classic works in (this) ever-growing subject...The team of authors are be congratulated on a significant piece of work."

—Food and Chemistry

Since the publication of the first edition of the acclaimed Encyclopedia of Food Science and Technology, developments in biotechnology and genetic engineering have revolutionized the field. In response to these new developments, a completely revised edition, containing over 100 new entries will be published in October, 1999. All areas of the first edition have been substantially revised, updated and expanded with an emphasis on emerging areas in food and nutrition delivery systems, including nutrition monitoring, chemical and microbiological food safety, risk management in food safety, functional foods and nutraceuticals in food formulation, food substitutes, and advances in food biotechnology.

The second edition features the most cutting-edge technology and industry information in a single source...

- Food Science/Nutrition
- Microbiology
- Consumer Affairs
- Processing
- Chemistry
- Regulatory Affairs

Rather than search through numerous journals, publications and Web sites, the reader can use the Encyclopedia of Food Science and Technology 2E as the starting point for researching all the key subject areas of food science and technology. Each article has been written by an expert in his or her field and then carefully edited to ensure clarity, comprehensiveness and accuracy. Extensive references to the current literature as well as cross-references within the Encyclopedia will lead the reader to additional sources of information.

Features...

- About 400 articles written by more than 400 expert authors
- A to Z coverage of food science and technology
- Latest coverage of food regulations, food safety, and nutrition monitoring and labeling

- New findings in genetic engineering of plants and animals
- Expanded and updated coverage of phytochemicals
- Recent developments in fat, dairy and sugar substitutes
- Tables, charts, figures and graphs to provide needed data and illustrate key concepts

Four Volumes: approx. 3,000 pages and 400 articles
ISBN: 0-471-19235-6 • October, 1999

SPECIAL PRE-PUB OFFER
$1,295 through 10/31/99; $1,500 thereafter

The Encyclopedia of Food Science and Technology 2E will be accessible for anyone from undergraduate students to researchers in specialized branches of food science. Like the first edition, the second edition, will become the standard reference for food scientists, bioengineers, biotechnologists wherever they may be found...

- Food and Agricultural Companies
- Drug and Cosmetic Companies
- Alcohol and Beverage Manufacturers
- Regulatory/Consumer Health Agencies
- Agricultural and Food Science Schools

MIDWEST LIBRARY SERVICE

from Gutenberg to McLuhan,
Galileo to galaxies—
We cover a universe of books.

PROMPTLY
From major new titles to the obscure “black hole,”
we waste no time.

ACCURATELY
From invoices to status reports, we get it right.

COMPLETELY
From first shipment to completion,
we offer maximum fulfillment.

COMPETITIVELY
From trade discounts to short, we give you your money’s worth.

These four pillars form the foundation of Midwest’s many years of service
to libraries. Depend on us as your source for U.S. and Canadian books.
Save valuable time, effort, and expense by relying on our:
- Expertise in automation services
- Exacting customer service
- Commitment to excellence
- Goal of maximum fulfillment
