LEARNING HAS NO BOUNDARIES

YOU KNOW YOUR STUDENTS NEED IEEE INFORMATION. NOW THEY CAN HAVE IT, AND YOU CAN AFFORD IT.

IEEE RECOGNIZES THE SPECIAL NEEDS OF SMALLER COLLEGES, and wants students to have access to the information that will put them on the path to career success. Now, smaller colleges can subscribe to the same IEEE collections that large universities receive, but at a lower price, based on your full-time enrollment and degree programs.

AIP Establishes New Online Subscription Options for 2007

*Physics Today* offers online subscriptions to institutions

AIP's flagship magazine, *Physics Today,* has established online options for libraries in 2007. Print subscribers can gain access from 2000 to all but the most recent 12 months of the magazine for an additional $200. Add this important new resource to your subscription today.

*AIP Conference Proceedings* creates online subscriptions to seven topical subseries

In 2007, for the first time, AIP is giving libraries the option of receiving online subscriptions to any of seven new subseries. These include: Materials Physics and Applications; Astronomy and Astrophysics; and Atomic, Molecular, and Optical Physics. Subscriptions include all titles in a subseries back to Jan. 2000.

*Biomicrofluidics* - New AIP open access journal is now available online

*Biomicrofluidics* is a new online-only, open access journal with rapid publication time, which will draw research from specialists in engineering, physics, rheology, chemistry, and biology. Add *Biomicrofluidics* to your e-journal listing today. Visit http://bmf.aip.org.

New Subscription options for established AIP journals

Two well-respected AIP journals, *Journal of Applied Physics* (JAP) and *The Journal of Chemical Physics* (JCP), are breaking out a subset of their content and offering it as a separate online subscription. From JCP will come *JCP: Biochemical Physics,* and from JAP will come an online edition of *Applied Physics Reviews.*

The APS Journal Legacy Content

One-Time Fee of $2,000

Saves 200 Linear Feet of shelf space!

The APS Journal Legacy Content is an “online package” of over 100 years of historical scientific research from the American Physiological Society’s (APS) 14 research journals that can be purchased separately at a one-time charge for perpetual use. It is not sold as a subscription; instead, you pay once ($2,000) for the perpetual access to the online content from all APS journals from 1898 to 1996-1998 (depending on the journal). This content goes back to the first issue of each of the APS journals—including APS’s first journal, the American Journal of Physiology, first published in 1888. The Legacy Content can be viewed as completely searchable scanned images of the printed pages. (find more info at: www.the-aps.org/publications/legacy)

When something is hand-made, special attention is paid, not only to requirements, but to tastes. Any woolen muffler can keep your neck warm, but a certain shade of red brings out the glow in your cheeks.

Handmade implies a human touch — someone at the other end of an interaction with a caring interest in its positive outcome.

WHY
HANDMADE IS BETTER

ESPECIALLY WHEN IT COMES TO BOOKSELLING

We believe in a handmade approach to bookselling. It’s an attitude that puts you first. Each order is crafted to make sure it responds exactly to your specifications. Need a Standing or Continuation order for an unusual title? We’ll build a solution that guarantees you will remain up-to-date.

Have Reserve Rush orders every semester? We’ll take all your orders and make sure the books are in your library before the first student approaches the desk.

Handmade means it’s not about us, it’s all about you: your budget, your resources, your time. Tired of placing a lot of orders directly because your jobber can’t or won’t supply them? We never decline an order. Frustrated with turn-around times and endless claims? Our cycle time will cut your claims dramatically. We apply a ruthless approach to orders that turns around over 95% in fourteen working days. You may never claim another order.

If you want to experience our handmade approach, or just want to know more, call John Perry Smith at (800) 876-4636. He’ll be glad to discuss how we can handcraft a plan for your library. Or visit us online at www.totalinformation.com.

The Third Edition of the highly acclaimed Encyclopedia of Special Education offers a thoroughly revised, comprehensive A to Z compilation of authoritative information on the education of those with special needs.

Unique in focus, the Encyclopedia of Special Education addresses issues of importance ranging from theory to practice and is a critical reference for researchers as well as those working in the special education field. A distinguished editorial board has guided the choice of over 300 expert contributors—both practitioners and academics—from over 30 countries.

COMPLETELY UPDATED—
SOME OF WHAT'S NEW IN THIS EDITION

- Latest information regarding the reauthorization of the Individuals with Disabilities Education Act (IDEA)
- Comprehensive coverage of No Child Left Behind (NCLB) legislation and guidelines
- Reviews of new assessment tests and curricula
- New entries on Cattell-Horn-Carroll model theory and practice, imaging, positive behavior support, response to intervention, and technology
- New biographies of important figures in special education, school psychology, and neuropsychology

All articles are cross-referenced, and citations guiding readers to related sources appear at the end of each entry.

Journal of Medical Devices

edited by Arthur G. Erdman, University of Minnesota and Gerald E. Miller, Virginia Commonwealth University

Focusing on applied research and the development of new medical devices or instrumentation, this new journal presents papers on devices that improve diagnostic interventional and therapeutic treatments. It provides special coverage of novel devices that allow new surgical strategies, new methods of drug delivery, or possible reductions in the complexity, cost, or adverse results of health care. The Design Innovation category features papers focusing on novel devices, including some with limited clinical or engineering results. The Medical Device News section provides coverage of advances, trends, and events.

For over forty years, Midwest Library Service has been quietly relieving librarians of the problems often associated with book and standing order purchasing.

Our Continuation & Standing Order Service is based on intensive, personal contact with thousands of publishers to ensure prompt and complete fulfillment on series, sets, annuals, yearbooks, and proceedings. It is our goal to take the guesswork and anxiety out of continuations and standing order fulfillment through timely shipments and thorough reporting.

Using sophisticated tracking programs, Midwest monitors pre-publication information and shipping schedules instead of relying on publisher-based systems. We will customize the fulfillment frequencies on annuals and yearbooks on a title-by-title basis. In the case of a delayed or missing edition, we contact the publisher by telephone to ensure fulfillment. Of course, you have access to historical fill data whenever needed. And to make matters even easier for you, we will assist in the seamless transfer of standing orders placed previously with publishers or other booksellers.

In an unstable time of publisher upheavals and understaffed, harried libraries, isn't it good to have a vendor you can count on?

If you are not completely satisfied with your current vendor, look to Midwest for all your book buying needs.
