EASIER THAN A CONFERENCE CALL WITH 30 LIBRARIANS.

Blackwell’s Collaborative Collection Development
Easy, online collaboration among libraries.

Torn between two similar titles? Worried about duplicating the collection of the library across town? Now, with just a few clicks, you can collaborate with libraries anywhere in the world.

Blackwell’s Collaborative Collection Development allows libraries to share views of their activities, such as orders placed, titles blocked, requests pending, and more. This no-cost addition to Collection Manager allows you to easily confer with fellow libraries—without impacting each other’s activity or divulging invoice activity.

Enjoy the benefits of collaborating with your colleagues—without all the phone calls. For more information and to start using Collaborative Collection Development, contact your Regional Sales Manager or call 1.800.547.6426 and ask for Customer Service.
IEEE is **VALUE.**

Beth depends on IEEE publications to bring her organization the latest technology research.

Not only do IEEE publications provide Beth with over 1 million online documents – including top-cited journals, cutting-edge conferences and vital standards – they do it for a reasonable price.

Research shows that IEEE journals are just 58% of the average journal price in the field on a page-for-page basis. That's why 81% of IEEE customers are satisfied or highly satisfied with the value of IEEE content. And why Beth has the reputation for spending her budget so wisely.

To Beth, IEEE is value. Discover what IEEE can be for you.

The International Union of Physiological Sciences (IUPS) and The American Physiological Society (APS) announced some major and exciting changes to News in Physiological Sciences (NIPS) in August of 2004. These changes will transform NIPS into a more state-of-the-art, reader-friendly publication.

You can expect the following changes that will surely capture the many aspects of physiology important to your research:

**New Name and New Look**
News in Physiological Sciences was renamed *Physiology*. Both the cover and the inside pages have a new, state-of-the-art look.

**New ISSN**
As of the August 2004 issue, the journal has a new ISSN. The new ISSN is 1545-9213, but it is a continuation of NIPS, volume 19 (former ISSN 0886-1714).

**New Features**
There are a number of new features, such as culled abstracts from other important papers, short articles on emerging topics and on emerging technologies, and reviews of web sites and occasional historical perspectives.

**Better use of Illustrations and Color**
The figures that appear in the articles will be drawn professionally to give the entire journal a polished and exciting look. There will be better use of color throughout.

**Best Authors, Excellent Editing, and Improved Graphics**
Through the efforts of the best authors, excellent editing, and improved graphics, the main goal of *Physiology* will still be to keep physiologists and others up-to-date on topics they may not follow closely. This journal will continue to report and describe trends, discoveries and events of interest to scientists and others working in the field of physiology. The main body of *Physiology* will still contain short review-type articles that have been the strength of NIPS.
Anytime Access

Crash through information barriers, cut through time zones, eliminate paper work - right from your own computer - with ANYTIME ACCESS to your order status.

The current order information available to us on our computer network is now available to you through:

thebookhouse.com

Virtually any order action can be made online - inquiries, claims, cancellations, order verification - right at your fingertips - ANYTIME, DAY OR NIGHT.

- now with “view only” options
- including standing orders with recent shipment history

Contact us today for ANYTIME ACCESS to all of your Book House, Inc. firm and standing orders.

Jobbers serving libraries with any book in print.
The finest collection of technical resources available...

Consisting of five databases, this package will help researchers find extensive and detailed information regarding technical disciplines.

Inspec® is the leading index to journals in electronics, physics, computing & manufacturing.

This comprehensive collection includes:
- Inspec®
- Computer Science Index™ (CSI)
- Information Science & Technology Abstracts™ (ISTA)
- Internet & Personal Computing Abstracts™ (IPCA)
- Computer Source™

AIP Offers More Ways to Access More Content Online

New Online Subscription for AIP Conference Proceedings
To date, online access to AIP Conference Proceedings has only been available to standing order customers. For 2005, we've created a new subscription that will provide online-only access to any institution. Volumes are available from 2000 forward, and the cost to all subscribers is $4,950. To learn more, visit our website at http://proceedings.aip.org.

Online access will give your patrons even faster access to results from prestigious conferences worldwide. Users of the electronic version of our proceedings will enjoy many of the advantages of AIP's Scitation platform, including:

- Access to more than 200 volumes, containing nearly 20,000 papers
- Browsable tables of contents and abstracts
- Access to more than 3,500 new papers each year

Get a 60-day FREE trial!
To learn more, e-mail corr@aip.org.

Complete AIP Journal Backfiles Available Online in 2005
In 2005, all AIP journals are available online beginning with Volume 1, Number 1. This impressive amount of newly digitized material provides users with tens of thousands of additional articles online. Regular subscriptions will include a five-year backfile (2000-2005).

Access to the backfiles of journals to which you subscribe is available for a small additional annual fee of only $95 each ($130 for The Journal of Chemical Physics, Applied Physics Letters, and Journal of Applied Physics). These greatly expanded archives — some going back more than 70 years — will be invaluable to your patrons.

THE GREENWOOD LIBRARY OF AMERICAN WAR REPORTING

EIGHT VOLUMES • DAVID A. COPELAND, GENERAL EDITOR

Read history being reported as it was being made. Offering over 2,000 newspaper and magazine articles and radio and television transcripts, The Greenwood Library of American War Reporting is the definitive reference source on American war journalism, covering every major and most minor conflicts over the past 250 years. From the French and Indian War to the War on Terror, the media have been "the first line of history" by offering immediate, raw, and sometimes confused reports about life-and-death struggles on the front lines to the information-hungry home front.

An extensive reader's guide to documents groups the annotated primary documents into thematic groupings, making it simple to locate reports on specific battles, people, treaties, topics, and the like.

A Central Source for Engineers and Scientists Laying the Foundation for Commercially Viable Fuel Cell Systems...

Journal of Fuel Cell Science and Technology

Each issue features full-length, peer-reviewed papers that present the results of original research. Addressing the practitioner as well as the researcher, the ASME Journal of Fuel Cell Science and Technology publishes research papers, technical notes, news briefs, book reviews, and editorials. Its scope includes:

- Development of constituent materials
- Joining, bonding, connecting interface/interphase regions, and seals
- Cell design
- Processing and manufacturing
- Thermal and water management
- Multi-scale modeling
- Combined and coupled behavior
- Aging, durability, and damage tolerance, reliability, availability
- Stack design and manufacturing
- Power electronics
- Balance of plant systems
- Optimization, control, availability
- Fuels-chemistry and processing
- Packaging and storing
- Transport and infrastructure
- Fuel cell applications, infrastructure, commercialization
- Field experiments and demonstrations

Contents, Volume 2, Number 1, February 2005

RESEARCH PAPERS

Water Balance in PEM and Direct Methanol Fuel Cells, Michael G. Izenzon and Roger W. Hill

Optimal SOFC Size Design for Minimal Cost of Electricity Achievement, Roberto Bove and Nigel M. Sammes

The Development of A Heterogeneous Composite Bipolar Plate of a Proton Exchange Membrane Fuel Cell, Ming-San Lee, Long-Jeng Chen, Zheng-Ru He, and Shih-Hiong Yang

Simulation-Aided PEM Fuel Cell Design and Performance Evaluation, Junxia Liu and Qingyun Liu

Oxygen Transport in YSZ/LSM Composite Materials, Manjit Dhillon and John Kilner

Stability and Reactivity of LSGM Electrolytes with Nickel-Based Ceramic Cathodes, Christopher N. Munnings, Stephen Skinner, Gisele Arrow, Pamela Whitfield, and Isabel Davidson

Modeling the Performance of a Tubular Solid Oxide Fuel Cell, Anshu Bharadwaj, D.H. Archer, and E.S. Rubin

A Multiphysics Modeling Study of (Pr0.7Sr0.3)MnO2+8 mol % Yttria-Stabilized Zirconia Composite Cathodes for Solid Oxide Fuel Cells, Ke An and Ken Reifsnider

Modeling the Performance of Flattened Tubular Solid Oxide Fuel Cell, Anshu Bharadwaj, D.H. Archer, and E.S. Rubin

Development of a New Aluminizing Method for MCFC Wet-Seals, S. Frangini, S. Lorenzi, and A. Masci

Coming in Sept. '05: Journal of Computational and Nonlinear Dynamics

1 (866) SERIALS (737-4257)
Maximize Your Library Holdings in 2005 With the Latest Content from Annual Reviews

Tailored and Affordable Site License Solutions for Your Institution

Features and Benefits Include:
- One Price - A Single Invoice
- Online-Only or Print + Online Options
- Tailored Single-Site, Multi-Site, and Consortia Licenses
- Choose ALL 31 Titles in a Full Discounted License, One of the Biomedical, Physical, or Social Science Suites OR A Custom Suite With a Unique Combination of Titles
- Seamless Online Access to Full Text Articles, PDFs, Reviews in Advance (RIA), Bibliographies, and Other Supplementary Material in the Current Volume as well as the Last 4 Years of Back Volumes as They Become Available

Now Available from Annual Reviews! Supplement Your Existing Site License With the Annual Reviews Electronic Back Volume Collection (EBVC)

Take your holdings one step further and bridge the content gap by providing access to the remaining back volumes in each Annual Reviews series to give you ALL Annual Reviews content online and available to your patrons.

Features and Benefits of EBVC Include:
- One Time Purchase for One Price
- A comprehensive electronic collection of all Annual Reviews back volumes, dating from 1932-1999
- Immediate Access to 875 Annual Reviews Volumes - Over 20,000 Authoritative Review Articles
- Fully Supplemented and Searchable
- COUNTER Complaint Usage Statistics
- Single-Site and Multi-Site Licenses Available

Contact Annual Reviews Site License Department to place your order.

New in 2005! The Annual Review of Clinical Psychology™ and the Annual Review of Law and Social Science™

Announcing Thieme’s new ElectronicBook Library

Systematically covering every course in the medical school curriculum, Thieme’s highly popular Flexibook Atlases & Textbooks series is now accessible online through the new Thieme ElectronicBook Library.

Packed with exquisite illustrations and succinct text, this beautifully produced collection retains the outstanding educational utility of the print books, while incorporating powerful search functions to allow easy pinpointing of topics. As a course text, reference or review guide this web-based resource is essential for every student, researcher and clinician on campus.

- Currently 24 books with the collection expanding to 35
- Covering anatomy, basic science, clinical science and radiology
- Each section displays concise text alongside detailed illustrations for easy comprehension and reference
- Flexible one year agreements with several licensing options

THE CRIMES
THAT SHOCKED
THE NATION

FAMOUS AMERICAN
CRIMES AND TRIALS

Five Volumes
Edited by Frankie Y. Bailey
and Steven Chermak

Crime, Media, and Popular Culture

What do Lizzie Borden, Gary Gilmore,
O. J. Simpson, and the Lindbergh baby have
in common? They were the focus of some
of the most infamous crimes and trials in
U.S. history. In this five-volume set, the
cases that "shocked the nation" and
became a part of the popular and legal
culture of the country are discussed in
vivid—and sometimes shocking—detail.
Each chapter focuses on one of the many
crimes and trials that have shaken U.S.
society from colonial times to the present,
vividly exploring the ways in which each
came famous in its own time.

Business student Laurie Francis wanted to go deeper into a research topic. We were already three steps ahead of her.

ProQuest introduces Curriculum Match Factor, a new way of thinking about how our content matches your curriculum. It reflects this reality: ABI/INFORM® provides the content that corresponds with the topics covered in business courses and textbooks throughout the world. The content comes from the most-respected, most-cited journals and other sources worldwide. And our new ProQuest® Smart Search technology helps Laurie find exactly what she needs, in a matter of moments. ABI/INFORM has always been about content. But it's also about curriculum and the content that matches it perfectly. ABI/INFORM. It's what you're teaching. For more information, visit www.il.proquest.com.
For over forty years, Midwest Library Service has been quietly relieving librarians of the problems often associated with book and standing order purchasing.

Our Continuation & Standing Order Service is based on intensive, personal contact with thousands of publishers to ensure prompt and complete fulfillment on series, sets, annuals, yearbooks, and proceedings. It is our goal to take the guesswork and anxiety out of continuations and standing order fulfillment through timely shipments and thorough reporting.

Using sophisticated tracking programs, Midwest monitors pre-publication information and shipping schedules instead of relying on publisher-based systems. We will customize the fulfillment frequencies on annuals and yearbooks on a title-by-title basis. In the case of a delayed or missing edition, we contact the publisher by telephone to ensure fulfillment. Of course, you have access to historical fill data whenever needed. And to make matters even easier for you, we will assist in the seamless transfer of standing orders placed previously with publishers or other booksellers.

In an unstable time of publisher upheavals and understaffed, harried libraries, isn't it good to have a vendor you can count on?

If you are not completely satisfied with your current vendor, look to Midwest for all your book buying needs.

For more information, contact a Standing Order specialist at 800-325-8833 or standingorders@midwestls.com.
