Learning Has No Boundaries

You know your students need IEEE information.
Now they can have it, and you can afford it.

IEEE recognizes the special needs of smaller colleges, and wants students to have access to the information that will put them on the path to career success. Now, smaller colleges can subscribe to the same IEEE collections that large universities receive, but at a lower price, based on your full-time enrollment and degree programs.

FIVE-VOLUME SET

"No general, multivolume encyclopedia has offered a broad overview of the subject...there has been nothing quite like this new Encyclopedia of
Anthropology from SAGE. The volumes are beautiful and a pleasure to use
and read...This source has no peers or competition that can be readily found.
All academic and large public libraries with an interest in anthropology should
buy it."

—BOOKLIST

"Thorough coverage is given to a wide range of topics in physical anthropology,
archaeology, cultural anthropology, anthropological linguistics, and applied
anthropology. More than 250 respected anthropologists and scholars have
contributed over 1000 A-to-Z articles...This balanced and user-friendly resource
will be a good starting point for basic anthropological research. Highly
recommended for academic libraries with anthropology collections and large
public libraries where there is interest in anthropology."

—LIBRARY JOURNAL

"SAGE Reference delivers a unique five-volume set with its recent publication
of the Encyclopedia of Anthropology. This is the first encyclopedic work that
attempts to represent and integrate the various and diverse areas of
physical/biological anthropology, archaeology, cultural/social anthropology,
linguistics, and applied anthropology. This is a tall order but this set does an
admirable job."

University of Pittsburgh
THREE-VOLUME SET

"While librarians have numerous choices for materials covering warfare and
society, there are not as many that cover warfare and its impact on society as
broadly or as well as Kursten's. If a library is looking to add to its coverage of
war and their impact or fill a gap, this is an excellent choice. The primary
documents and the work's breadth will ensure that a variety of readers find it
useful and engaging."

—LIBRARY JOURNAL

"Editor Kursten, four associate editors, and 153 other expert contributors have
produced an excellent reference work...Entries are well written and easy to
read, and each includes a selected bibliography, suggestions for further reading,
and a list of related entries within the set."

—BOOKLIST

"This new illustrated history reference work focuses on the past 100 years, since
that is the period for wars that have most shaped the present environment in the
US. The 528 signed entries from 158 expert contributors are arranged in an
A-to-Z format, and cover important individuals, events, books, stories,
organizations, themes, and conflicts."

The APS Journal Legacy Content

One-Time Fee of $2,000

Saves 200 Linear Feet of shelf space!

The APS Journal Legacy Content is an “online package” of over 100 years of historical scientific research from the American Physiological Society’s (APS) 14 research journals that can be purchased separately at a one-time charge for perpetual use. It is not sold as a subscription; instead, you pay once ($2,000) for the perpetual access to the online content from all APS journals from 1896 to 1996-1998 (depending on the journal). This content goes back to the first issue of each of the APS journals—including APS’s first journal, the American Journal of Physiology, first published in 1895. The Legacy Content can be viewed as completely searchable scanned images of the printed pages. (Find more info at: www.the-aps.org/publications/legacy)

WHY
HANDMADE IS BETTER

When something is handmade, special attention is paid, not only to requirements, but to tastes. Any woolen muffler can keep your neck warm, but a certain shade of red brings out the glow in your cheeks.

Handmade implies a human touch — someone at the other end of an interaction with a caring interest in its positive outcome.

WHY
HANDMADE IS BETTER

ESPECIALLY WHEN IT COMES TO BOOKSELLING

We believe in a handmade approach to bookselling. It's an attitude that puts you first. Each order is crafted to make sure it responds exactly to your specifications. Need a Standing or Continuation order for an unusual title? We'll build a solution that guarantees you will remain up-to-date.

Have Reserve Rush orders every semester? We'll take all your orders and make sure the books are in your library before the first student approaches the desk.

Handmade means it's not about us, it's all about you: your budget, your resources, your time. Tired of placing a lot of orders directly because your jobber can't or won't supply them? We never decline an order. Frustrated with turn-around times and endless claims? Our cycle time will cut your claims dramatically.

We apply a ruthless approach to orders that turn around over 95% in fourteen working days. You may never claim another order.

If you want to experience our handmade approach, or just want to know more, call John Perry Smith at (800) 876-4636. He'll be glad to discuss how we can fashion a plan for your library. Or visit us online at www.totalinformation.com.
New in 2007...

Journal of Medical Devices

Focusing on applied research and the development of new medical devices or instrumentation, this new journal presents papers on devices that improve diagnostic interventional and therapeutic treatments. It provides special coverage of novel devices that allow new surgical strategies, new methods of drug delivery, or possible reductions in the complexity, cost, or adverse results of health care. The Design Innovation category features papers focusing on novel devices, including some with limited clinical or engineering results. The Medical Device News section provides coverage of advances, trends, and events.

...when you need information about your order RIGHT NOW!
"I think I've finally gotten the serials list back into shape."

"How about the standing orders?"

"They've always been with Midwest. Never had a problem there!"

For over forty years, Midwest Library Service has been quietly relieving librarians of the problems often associated with book and standing order purchasing.

Our Continuation & Standing Order Service is based on intensive, personal contact with thousands of publishers to ensure prompt and complete fulfillment on series, sets, annuals, yearbooks, and proceedings. It is our goal to take the guesswork and anxiety out of continuations and standing order fulfillment through timely shipments and thorough reporting.

Using sophisticated tracking programs, Midwest monitors pre-publication information and shipping schedules instead of relying on publisher-based systems. We will customize the fulfillment frequencies on annuals and yearbooks on a title-by-title basis. In the case of a delayed or missing edition, we contact the publisher by telephone to ensure fulfillment. Of course, you have access to historical fill data whenever needed. And to make matters even easier for you, we will assist in the seamless transfer of standing orders placed previously with publishers or other booksellers.

In an unstable time of publisher upheavals and understaffed, harried libraries, isn't it good to have a vendor you can count on?

If you are not completely satisfied with your current vendor, look to Midwest for all your book buying needs.

For more information, contact a Standing Order specialist at 800-325-8833 or standingorders@midwestls.com.
