Protein of the year is ATP synthase, an important metabolic enzyme.
We’re constantly developing our industry-leading online journals platform, informed by detailed consultation with the library and research communities. Some recent advances include:

- A refreshed site design, facilitating rapid access to the most relevant content.
- A new advanced search interface and a more detailed, fielded quick search function.
- Enriched content in the form of multimedia companions and editorial blogs.
- The launch of Cambridge Open Option, our open access initiative. Visit journals.cambridge.org/openoption for more information.
- The capabilities for MetaLib users to include Cambridge Journals along with other databases in a single search.

LEARNING HAS NO BOUNDARIES

YOU KNOW YOUR STUDENTS NEED IEEE INFORMATION.
NOW THEY CAN HAVE IT, AND YOU CAN AFFORD IT.

IEEE RECOGNIZES THE SPECIAL NEEDS OF SMALLER COLLEGES, and wants students to have access to the information that will put them on the path to career success. Now, smaller colleges can subscribe to the same IEEE collections that large universities receive, but at a lower price, based on your full-time enrollment and degree programs.

The Journal Publishing Program of the American Physiological Society (APS) covers the entire spectrum of physiology—examining major physiological systems, from the cellular and molecular to the organ and system level. These prestigious peer-reviewed journals are available in print and online. An online subscription to the APS journals provides you with immediate access to the latest issue of the journal as well as with continued access to all content published previously online. Subscribers to the online journals also get access to the fastest possible publication of original research articles through our Articles in Press feature—articles published in manuscript form within a few days of acceptance.

The APS journal titles are:

- American Journal of Physiology (AJP consolidated)
- AJP-Cell Physiology
- AJP-Endocrinology and Metabolism
- AJP-Gastrointestinal and Liver Physiology
- AJP-Lung Cellular and Molecular Physiology
- AJP-Heart and Circulatory Physiology
- AJP-Regulatory, Integrative and Comparative Physiology
- AJP-Renal Physiology
- Journal of Applied Physiology
- Journal of Neurophysiology
- Physiological Genomics
- Physiological Reviews
- Physiology
- Advances in Physiology Education

The APS Journal Legacy Content

One-Time Fee of $2,000

Saves 200 Linear Feet of shelf space!

The APS Journal Legacy Content is an “online package” of over 100 years of historical scientific research from the American Physiological Society’s (APS) 14 research journals that can be purchased separately at a one-time charge for perpetual use. It is not sold as a subscription; instead, you pay once ($2,000) for the perpetual access to the online content from all APS journals from 1898 to 1996-1998 (depending on the journal). This content goes back to the first issue of each of the APS journals—including APS’s first journal, the American Journal of Physiology, first published in 1898. The Legacy Content can be viewed as completely searchable scanned images of the printed pages. (find more info at: www.the-aps.org/publications/legacy)
Your patrons need the best review materials. An Annual Reviews site license guarantees it.

Exceptional Quality. Exceptional Pricing. Exceptional Value.

Annual Reviews publications operate as a high quality filter, prioritizing and synthesizing the primary research literature in 33 disciplines for the Biomedical, Life, Physical, and Social Sciences. Via authoritative and comprehensive review articles written by leading scholars, Annual Reviews is dedicated to helping scientists and researchers around the world prioritize and navigate the vast amount of primary research literature and data that is available to them.

Annual Reviews offers:
- A variety of affordable site license configurations for every institution
- Authors that are premier contributors to their fields
- Volumes that consistently earn the highest ISI® Journal Citation Reports® Rankings
- Innovative and enhanced online content that includes Reviews In Advance (RIA), fully supplemented and searchable full-text articles and PDFs, and supplementary links to all participating CrossRef publications, Medline® and ISI’s Web of Science®

AIP Establishes New Online Subscription Options for 2007

Physics Today offers online subscriptions to institutions
AIP’s flagship magazine, Physics Today, has established online options for libraries in 2007. Print subscribers can gain access from 2000 to all but the most recent 12 months of the magazine for an additional $200. Add this important new resource to your subscription today.

AIP Conference Proceedings creates online subscriptions to seven topical subseries
In 2007, for the first time, AIP is giving libraries the option of receiving online subscriptions to any of seven new subseries. These include: Materials Physics and Applications; Astronomy and Astrophysics; and Atomic, Molecular, and Optical Physics. Subscriptions include all titles in a subseries back to Jan. 2000.

Biomicrofluidics - New AIP open access journal is now available online
Biomicrofluidics is a new online-only, open access journal with rapid publication time, which draws research from specialists in engineering, physics, rheology, chemistry, and biology. Add Biomicrofluidics to your e-journal listing today. Visit http://bmf.aip.org.

New Subscription options for established AIP journals
Two well-respected AIP journals, Journal of Applied Physics (JAP) and The Journal of Chemical Physics (JCP), have broken out a subset of their content and offer it as a separate online subscription. From JCP comes JCP: Biochemical Physics, and from JAP comes an online edition of Applied Physics Reviews.

Advancing Computing as a Science & Profession
The definitive reference on special education—now in a new edition!

The *Third Edition* of the highly acclaimed *Encyclopedia of Special Education* offers a thoroughly revised, comprehensive A to Z compilation of authoritative information on the education of those with special needs.

Unique in focus, the *Encyclopedia of Special Education* addresses issues of importance ranging from theory to practice and is a critical reference for researchers as well as those working in the special education field. A distinguished editorial board has guided the choice of over 300 expert contributors—both practitioners and academics—from over 30 countries.

**COMPLETELY UPDATED—SOME OF WHAT'S NEW IN THIS EDITION**

- Latest information regarding the reauthorization of the *Individuals with Disabilities Education Act* (IDEA)
- Comprehensive coverage of *No Child Left Behind* (NCLB) legislation and guidelines
- Reviews of new assessment tests and curricula
- New entries on Cattell-Horn-Carroll model theory and practice, imaging, positive behavior support, response to intervention, and technology
- New biographies of important figures in special education, school psychology, and neuropsychology

All articles are cross-referenced, and citations guiding readers to related sources appear at the end of each entry.

Physiology (formerly News in Physiological Sciences) publishes invited review articles written by leaders in their fields. These articles are peer-reviewed and highlight major advances in the broadly defined field of physiology. The journal also publishes shorter articles that either highlight important emerging topics and technologies or explore differing points of view. Finally, the journal identifies and briefly summarizes some of the most exciting new papers in physiology. With a new format that is both exciting and attractive, the journal is a valuable tool for researchers, educators, and students.

Physiology is published jointly by the International Union of Physiological Sciences and The American Physiological Society. It is indexed by Medline and PubMed.

Features For All Scientists

In addition to incisive, brief reviews, our new format will include some or all of the following in each issue:

- Highlights from the Literature: a summary of approximately 12-15 current papers nominated by editors around the world

- Emerging Tools and Technologies: discussions of new methodologies of interest

- Emerging Topics: brief discussions of new concepts in physiology

- Point/Counterpoint: collegial discussions of opposing viewpoints

- Timelines: brief historical articles describing how a particular field developed to where it is today, sometimes linked to current reviews in Physiology
Sustainable design from every angle.

The Wiley Series in Environmentally Conscious Engineering goes beyond compliance to look at innovative methods and trends in design, processing, and manufacturing, helping engineers focus on environmentally friendly processes and products. These first three volumes in the series examine sustainable approaches to mechanical design, manufacturing, and material and chemical processing.

Physiological Genomics (physiolgenomics.org) is an online-first publication of The American Physiological Society (APS). *Physiological Genomics* publishes studies that merge high-throughput data sources and hypothesis-driven research into a cohesive picture of cellular, tissue-level and whole-organism function (systems biology). This includes expression profiling, proteomics, gene targeting, comparative genomics and the genetics of complex disease. The application of these new genomic tools and reagents is rapidly enriching our understanding of physiological systems and transforming our thinking about biological problems. *Physiological Genomics* provides a speedy electronic peer review process, with the average time from submission to first editorial decision under a month, and immediate electronic publication of papers upon acceptance. *Physiological Genomics*’ 2005 Impact Factor is 4.636.

**Open Access:** Authors can choose to pay a $750 fee in addition to regular author fees to have their article published online with Open Access from the first date of publication. Twelve months after publication, all online articles are made freely accessible to the world, regardless of the author’s choice.

- For more information on Open Access, see: www.the-aps.org/publications/pg/interest.htm

Jobbers serving libraries with any book in print.
“I think I’ve finally gotten the serials list back into shape.”

“How about the standing orders?”

“They’ve always been with Midwest. Never had a problem there!”

For over forty years, Midwest Library Service has been quietly relieving librarians of the problems often associated with book and standing order purchasing.

Our Continuation & Standing Order Service is based on intensive, personal contact with thousands of publishers to ensure prompt and complete fulfillment on series, sets, annuals, yearbooks, and proceedings. It is our goal to take the guesswork and anxiety out of continuations and standing order fulfillment through timely shipments and thorough reporting.

Using sophisticated tracking programs, Midwest monitors pre-publication information and shipping schedules instead of relying on publisher-based systems. We will customize the fulfillment frequencies on annuals and yearbooks on a title-by-title basis. In the case of a delayed or missing edition, we contact the publisher by telephone to ensure fulfillment. Of course, you have access to historical fill data whenever needed. And to make matters even easier for you, we will assist in the seamless transfer of standing orders placed previously with publishers or other booksellers.

In an unstable time of publisher upheavals and understaffed, harried libraries, isn't it good to have a vendor you can count on?

If you are not completely satisfied with your current vendor, look to Midwest for all your book buying needs.
