This document has been made available through Purdue e-Pubs, a service of the Purdue University Libraries. Please contact epubs@purdue.edu for additional information.
(Controlled Lots of Copies Keeps Stuff Safe) we work with libraries and publishers in an Open Access environment to keep multiple copies of e-journals and other forms of electronic content on “dark” servers, which can only be accessed when a journal stops being published. I spoke about this sort of library Cloud Computing at our Leadership Institute in Beijing. HKU’s Library is one of 11 libraries worldwide to have a CLOCKSS box in which the content is stored.

So, in the future when speaking of clouds, be gentle — most of the intellectual output of everyone in our university is now or will be in the cloud.

---

one of our upcoming issues. http://www.timberlinelodge.com/

Oh! Y’all be sure and read the great Forum on this issue, p.8 & 10! It’s about what five prominent librarians (Rick Anderson, Kim Armstrong, Steve Carrico, Tony Horava, and Tony Ferguson) have to say about what they expect from their bookseller! We are interested in doing more Forums on important topics so — let us know if you have a topic to suggest! <kstrauch@comcast.net>

There is so much more to tell you but I am out of space! I am going to put the leftovers on the ATG NewsChannel under Rumors. BTW, have you been to the NewsChannel lately? There has been an interesting exchange there about advertisements on Facebook. www.against-the-grain.com/
