YBP Library Services offers **Patron Choice** for libraries interested in patron-driven acquisitions

With Patron Choice, librarians can create different models that best meet their library needs and the demands of their library patrons. Models can easily be set up to encompass e-books, print books, or both.

**YBP offers:**
- Mediated or unmediated patron choice acquisitions
- Print and/or electronic formats
- Collection development expertise, providing titles patrons want most
- Duplication control
- E-catalog records
Announcing a new, fully-automated service that allows libraries to establish “e” and “p” format preferences by subject and publisher. This innovative program takes into account the possibility of different release dates for the two formats—and can integrate with our patron selection programs!

A New Type of Review Journal

Cold Spring Harbor Laboratory Press announces the launch of a new monthly online publication, *Cold Spring Harbor Perspectives in Biology*. Spanning the complete spectrum of the molecular life sciences, the journal offers article collections that comprehensively survey topics in molecular, cell, and developmental biology, genetics, neuroscience, immunology, cancer biology, and molecular pathology. Written by leading researchers and commissioned by an eminent board of editors, subject collections grow with every issue of the journal. *Cold Spring Harbor Perspectives in Biology* is thus unmatched in its depth of coverage and represents an essential source for informed surveys and critical discussion of advances in emerging areas of biology.

**Scope**: Molecular Biology, Cell Biology, Developmental Biology, Genetics, Immunology, Neurobiology

OECD Employment Outlook 2010
July 2010, 275pp, 978-92-64-08468-1
The 2010 edition of the OECD Employment Outlook reviews the most recent developments in the labor market and provides the OECD's first complete assessment of the scope and effects of the policy measures put forward during the crisis. The analysis and policy recommendations are accompanied by a rich statistical annex including standardized unemployment rates, incidence and composition of part-time employment, and many more.

The OECD Employment Outlook covers OECD countries as well as the key emerging economies – Brazil, China, India, Indonesia and South Africa.

Organizing Local Economic Development: The Role of Development Agencies and Companies
June 2010, 493 pp. 978-92-64-06081-4
Development processes occur within a wider geographical area than local government, and in some cases encompass a broader scope than provincial or national governments. Thus substantial inter-governmental co-operation and public-private partnership are needed. This book identifies how development agencies and companies work, what they do and what constitutes success and value added. It explores international practices in a variety of locations and contexts, and defines both the success factors and the challenges associated with economic development agencies and companies.

Lobbyists, Governments and Public Trust, Volume 2 Promoting Integrity through Self-regulation
August 2010, 168 pp, 978-92-64-08493-3
This report examines self-regulation by, and government regulation of, the lobbying profession in an effort to rein in the perception or reality of undue influence-peddling, with a particular emphasis on experiences in Europe. It documents steps taken by lobbying associations in Europe in self-regulating the profession, drawing on personal interviews with leaders of the associations. It also draws on a survey – the most comprehensive survey to date – of lobbyists’ attitudes towards self-regulation and regulation of the lobbying profession in Europe. It reviews the options for improving transparency and accountability in lobbying and suggests ways in which government regulations and self-regulatory tools (codes of conduct, ethics training, enforcement mechanisms, registration) can be strengthened.

UniPHY
A new discovery and networking site for the physical sciences from the American Institute of Physics

Discover a revolutionary new approach to scientific collaboration
• Enables researchers to analyze the profiles of more than 300,000 colleagues
• Allows scientists to explore their personal network – starting with their direct co-authors and then the co-authors of their co-authors
• Lets researchers identify those with needed expertise through easy-to-use search interfaces

NEW features now available!
• A more streamlined, user-friendly graphical interface
• A CV section where scientists can list their education, work history, and current research interests
• The ability to recommend articles to other members
• A “People you might know” feature, listing colleagues that have collaborated with a researcher’s co-authors

Discover the tremendous benefit UniPHY provides to professionals working in libraries, in publishing, and in information management.

Preface

Continuations and standing orders represent a frustrating and time-consuming area of book acquisitions. Efficient management of continuations requires a staff knowledgeable in all aspects of standing order procedures, with prompt and accurate service being essential.

Midwest Library Service has been providing continuation and standing order programs to libraries for over three decades with the same commitment to high quality as our firm order service: prompt delivery, accurate invoicing, immediate reporting, convenient communications, and personal Library Service Representatives. Our reputation for excellence is well established and we invite you to place your continuations list with us.

Scope

Our Continuation & Standing Order Service encompasses most series and continuations from U.S. publishers. Our services do not include supplying magazines, journals, or loose-leaf updating services.

Procedure

Our Continuation & Standing Order Service incorporates both automated systems and personal surveillance. Instead of relying on the filing and ordering systems of the publishers, we place orders for specific volumes as books are due to be published. If the next item in a series is not received when scheduled, we initiate a new order for the same item. This procedure helps avoid potentially missed volumes and eliminates any dependence upon the publishers’ fulfillment systems. If in-house information is not available on future volumes to be published, we call the publisher for future projections and publication schedules. This information is then used to update our new title records.

Advantages

1. Because of our method of ordering specific volumes, we are in regular communication with the publishers.
2. Our status reports are prompt and accurate and should eliminate library claims.
3. Specific claims from an individual library resulting in an updated status report will generate new status reports to all libraries ordering the same series.
4. We do not drop ship.

Quality service depends on good communications between the library and the jobber. Your personal Library Service Representative and our convenient communications provide easy access to us regarding your continuation orders. We invite you to try our service by sending us your next list of standing order titles.
