InfoSci®-Journals

The leading electronic collection of 145 full-text, peer-reviewed journals that focus on specialized topics in over 200 disciplines relating to the utilization and management of information technology as applied to business, education, healthcare, medicine, engineering, public administration, and social science.

Collection Features:
- Contains over 7,500 full-text articles available in PDF
- Includes more than 190,000 reference citations for further research
- Updated continuously as new IGI Global journal issues go to press
- Journals are indexed in highly influential indices including SciVerse SCOPUS, Thomson Reuters, ACM Digital Library, and Compendex
- Electronic versions of all documents available before print release
- Complimentary, downloadable MARC records
- Offers institutions unlimited simultaneous access and liberal DRM
- Priced at a fraction of the combined print value
- All content digitally preserved with the CLOCKSS Archive

Platform Features:
- Advanced XML-powered, full-text search engine with increased search speed and ranked results
- Multi-lingual user interface
- The ability to search by content type and product type
- The ability to sort by relevance, title, and copyright year
- In addition to RefWorks and EasyBib citation export, this premier platform also offers ALA-, MLA-, and Chicago-style formatting
- Open URL compliance
- COUNTER compliant reports and statistics
- Persistent URLs
- Offers liberal DRM and no maintenance fees with perpetual purchase

In the continually evolving world of information dissemination, YBP is uniquely positioned to meet today's library, consortia and patron demands. Through partnerships with leading research publishers and content aggregators, YBP offers the most extensive choice of acquisition, collection development and technical services.

For more information, please call 800-258-3774 or email sales@ybp.com today!
The Most Comprehensive, Customizable Discovery Solution

- Fast, simple access to all of the library’s full-text content (electronic and print)
- The most complete list of partners of any discovery service
- Highest-quality metadata of any discovery service
- Inclusion of subject indexing from top indexes not available from other services

Please contact us for more information:

Annual Reviews intelligently synthesizes critical literature in the Biomedical, Life, Physical, and Social Sciences, including Economics. Our editors and authors are premier contributors to their fields. Your patrons can rely on Annual Reviews to assess the available research and deliver the ideas that matter, to cut out the noise, and to meet their research needs efficiently and in a timely manner.

ANNUAL REVIEWS NOW AVAILABLE ON MOBILE DEVICES!

The Annual Reviews mobile site is the gateway to highly cited research on the go, and provides a personalized browsing, searching, and reading experience optimized for mobile use.

Users can now browse, search, and read full-text content anytime, anywhere on the Annual Reviews mobile site from popular mobile devices. Visit www.annualreviews.org from a mobile device to:

- Browse journals and articles
- Search journals by keyword, author, or title
- View abstracts
- Read full-text articles (personal or institutional subscription required)
- Read forthcoming articles (personal or institutional subscription required)
- View and search references and related links

Learn more about our mobile site at: http://www.annualreviews.org/r/aboutmobile

is the world’s leading weekly scientific journal. Science Classic, the digital archives of Science provides access to 116 years of Science, from 1880 through to 1996. Science Express, Science’s pre-publication service offers research as much as four to six weeks ahead of official publication.

Science TranslationaMedicine

focuses on bringing the latest scientific advances from the bench to the bedside. Despite a growing understanding of human biology, utilizing these discoveries to close gaps in medical knowledge has progressed slowly. Science TranslationaMedicine aims to publish discoveries capable of generating innovative ways to prevent, diagnose, and treat disease.

Science Signaling

publishes research and commentary pertaining to cell biology. Papers selected provide improved understanding of the effects of cell chemistry on biological systems and advance new biological signal transduction concepts. Science Signaling ranks among the top 25 percent of all journals publishing Cell Biology research.

Remote Access Technologies for Library Collections: Tools for Library Users and Managers

Diane M. Fulkerson (University of South Florida Polytechnic Library, USA)

Remote Access Technologies for Library Collections: Tools for Library Users and Managers is crucial to understanding the changes in accessing library materials and the new expectations that library users have in the 21st century. Identifying, implementing, and updating new technologies, understanding copyright and fair use laws, creating metadata for access to digital collections, and meeting user needs are just some of the topics covered in this volume. Libraries have become the electronic information commons of the new information age and this reference provides a vital exploration of the future.

Pre-pub Price:* Print: US $165; Perpetual: US $250

* Pre-pub price is good through one month after publication date.

Take Advantage of the Ease and Convenience of ASME eBooks

The ASME eBook collection offers up to 120 recent and classic ASME books, with selected titles going back to 1998.

Browse and search thousands of chapter abstracts and excerpts online for free at www.asmedl.org, or subscribe to the complete ASME eBooks collection.
- eBook content fully searchable on its own
- eBook content fully searchable collectively with the ASME online journals and conference papers.

Subscription Options:
Option 1.
Standard 12-month subscription for 2012: $2,500/year* provides digital access to 120 books including titles such as Pipeline Design and Construction; Companion Guide to the ASME Boiler & Pressure Vessel Code, Volumes 1-3; The Elements of Mechanical Design; Geometric Dimensioning and Tolerancing Handbook: Applications, Analysis & Measurement, and more.

Option 2.
One-time purchase: $14,000* provides continuous access to all current titles.

Both options include new book titles as available (up to and including all 2012 print publications).

Subject Areas Include:
- Design and Manufacturing
- Engineering Management
- Pressure Vessels & Piping
- Pipeline Engineering
- Gas Turbines & Power
- Heat Transfer and Electronic Packaging
- Reliability and Risk Analysis
- Tribology
- Emerging Technologies (such as Biomedical, Nano, and Computing Engineering)

* Prices subject to change.

To subscribe to the ASME eBook collection, contact Melanie Goldate at 973-882-2223 or goldatem@asme.org
CONCISE, BORN-DIGITAL BOOKS FOR ADVANCED BUSINESS STUDENTS

Cost-efficient Digital Libraries offering:

✓ collections of 50+ ebooks designed as reference works and course readings, built around the modern MBA curriculum;
✓ unlimited concurrent use, downloading, and printing;
✓ unrestricted uploading to course management systems;
✓ a one-time payment/perpetual access model;
✓ free MARC records; and
✓ COUNTER-compliant usage statistics

Business Expert Press is a new publisher developed with the input of librarians and business professors. We provide curriculum-based content for advanced business students: books written by academic thought leaders who translate real-world experience into cost-effective teaching tools.

Also available:

Hard-to-Obtain Books?
Midwest Library Service
Won’t Take “No” For An Answer

Publisher buyouts, takeovers, mergers, and distribution changes all have contributed to an industry-wide dysfunction affecting book order fulfillment. Inadequate fulfillment is especially felt by the librarians who bear ultimate responsibility for meeting patron demand.

At Midwest, we realize that accurate and timely order fulfillment is the benchmark service by which vendors (and librarians) are judged. We do not accept an out-of-print or out-of-stock notice from a US publisher as final proof that the book is not available, having found that inventory is often available in the UK and elsewhere.

By taking the time and effort to research these titles, Midwest has a superior level of success in supplying them. Some trade jobbers will often simply relay the publisher’s report and cancel such titles.

We do not accept publishers’ OP, NOP, and TOS reports without further research to determine their validity. Our research specialists are dedicated to locating hard-to-obtain titles.

By diligent research we are able to locate many book orders that would otherwise be lost due to publishers’ bad reports, inadequate research, or database dead-ends. Our researchers take over the hunt for titles where computers leave off. We will not cancel an order until we determine that a book is truly unavailable.

Contact Midwest and watch your fulfillment level and patron satisfaction improve!
